Petition Calling for Review of the Proposed Glebe Island Multi-Use Facility

To the Honourable Speaker and Members of the Legislative Assembly in NSW: this petition of the people of New South Wales brings to the attention of the House:

There is support for some level of working harbour, but plans to significantly intensify port operations at Glebe Island risk residential amenity in densely populated Pyrmont. No real controls are proposed to protect residential amenity, with ship and truck movements allowed to expand to meet demand and 24-hour, seven day a week operations. There are no bans on ships running generators while berthed or leaving lights on at night. Residents already experience impacts from existing port operations and the White Bay Cruise Ship Terminal.

The Port Authority of NSW is putting forward, assessing and approving this proposal. There is still no strategic plan for the Bays Precinct despite successive piecemeal planning proposals.

The undersigned petitioners therefore ask that the government carry out an independent environmental impact assessment and impose enforceable conditions on the operations including night and weekend bans to protect adjacent residential amenity.
