

Petition Calling for the NSW Government to Retain Inner City Social Housing

*To the Honourable the Speaker and Members of the Legislative Assembly in New South Wales in Parliament assembled.
This petition of the people of New South Wales brings to the attention of the House:*

Inner Sydney housing is increasingly unaffordable, and there are very long waiting lists for social housing close to jobs, transport, and health and welfare services. Sale of inner city social housing properties has reduced the number of low cost homes at the same time as more intensive development has increased density.

Inner city public housing is necessary to provide housing and help to our most vulnerable citizens, close to transport, support services and jobs.

The undersigned petitioners therefore ask the government to retain and maintain inner city public housing stock.
