

Petition Calling for Expanded Mental Health Services

*To the Honourable the Speaker and Members of the Legislative Assembly of New South Wales
This Petition of the people of New South Wales brings to the attention of the House:*

Report after report on mental health needs show massive underfunding over many years. While the government has upgraded mental health crisis services, there is constant pressure to discharge people back into the community, where there is limited community support or help to prevent future crises. There are very limited community support programs to help people maintain a home, get jobs and fully participate in the community.

The undersigned petitioners therefore ask the government to provide community outreach and support programs for people with a mental illness who are social housing tenants.
