Dear Friends,

Like the headline says, the battle for the Supreme Court begins **now**.

Most people don't think about the Pennsylvania Supreme Court until the court does something to upset them.

Sadly, the Democrat controlled Pennsylvania Supreme Court has provided people with enough kindling to upset them for a few years.

In 2018, Democrat activist judges on the court decided to ignore the constitution and recreated the congressional districts in Pennsylvania. [For the first time in Pennsylvania's 233 years, the Supreme Court decided what the congressional districts will look like, not the legislature.](#)

Who will forget the court's hat-trick of a 2020 decision concerning the 2020 General Election? [The court allowed for expanded mail-in-ballots, remote voting offices, and arbitrarily extended the deadline to return mail-in-ballots.](#)

Thankfully, we have an excellent candidate for Supreme Court in [Judge Kevin Brobson](#). Check out some information to the left of this letter (or above this letter on your phone) on Kevin Brobson and read about the opinion he authored concerning mail-in-ballots in the 45th senate district race in 2020.
