Dear Fellow Republicans,

Thank you to everyone who attended and made our annual picnic a huge success! With over 300 of our grassroots supporters in attendance, our picnic was the perfect transition from summer into the "official" beginning of campaign season.

You can rest assured that our County Council, Court of Common Pleas, mayoral, and local Republican candidates didn't wait for the "official" beginning. Most have been hard at work throughout the summer; taking their message directly to you, the voters.

RCAC in conjunction with the PAGOP have been hosting phone banks and door knocking deployments for our candidates. We made close to 2,000 phone calls yesterday for our Pittsburgh mayoral candidate, Tony Moreno. We will be also deploying volunteers on Saturday morning to knock on behalf of his campaign.

Next Tuesday, we will be hosting a phone bank for Joseph Patrick Murphy's campaign.

Also, this past weekend we saw the raw hypocrisy offered by today's Democrat Party. County Councilwomen Bethany

Hallam and Olivia Bennett introduced a mask mandate ordinance for Allegheny County. Among other things, this mandate would have required a \$100 fine for anyone not wearing a mask at Steelers and Pirates games.

Consider this: the prime sponsor, Olivia Bennett proposes to fine YOU yet she owes MORE THAN \$50,000 in back taxes. You read that right. She doesn't pay her own taxes but expects to have the authority to fine you \$100 for not wearing a mask. The other sponsor, Bethany Hallam hasn't attended a County Council meeting in over a year and a half due to her "COVID concerns", yet she attended this past weekend's Steelers' game in Buffalo, with more than 71,000 people....without wearing a mask. She has also attended countless out of town sporting events as well as countless Pirates' and PITT football games.

That right there shows you what we are up against. **The hypocrisy of the left is earth shattering.**

However, as a member of Allegheny County Council, I opposed the mask mandate during our county council meeting on Tuesday night. I am proud to report to you that with working with my colleagues on council, we were able to put a stop to this madness! **With ten no votes, mask mandates in Allegheny County are no longer on the table.**

We are now **only 47 days away from Election Day**, you can help protect elections and provide transparency to this cornerstone of democracy. Contact RCAC today to get more information on how you can become an official watcher for the Republican Party or any of our local candidates.

As always, thank you for everything you do on behalf of the Republican Party,
