

**WORKING TOGETHER WITH
THE PALASZCZUK GOVERNMENT,
WE'VE DELIVERED.**

Manufacturing Skills Queensland

A centre of excellence in the delivery of world class skills and training in a manufacturing led COVID-19 economic recovery.

Background

Manufacturing is one of Queensland's largest contributors to the economy. It has consistently contributed more than \$20 billion yearly over the last decade and employs more than 174,000 workers directly. It is clear manufacturing is a key pillar of Queensland's economy.

86% of workers in the manufacturing industry are employed as permanent.

What will Manufacturing Skills Queensland be?

Working together with the Palaszczuk Government, we've secured a commitment to establish MSQ, a specialist manufacturing skills organisation to drive world class skills, for a world class manufacturing industry. MSQ will invest in programs that directly support the growth and development of the skills base of the Queensland manufacturing industry, increased capacity and stronger local supply chains.

MSQ will drive the procurement and delivery of world class skills and training to support, develop and grow our manufacturing industry.
