TORONTO CITY COUNCILLOR DAVENPORT

COMMITTED TO OUR COMMUNITY

Spring/Summer 2019

Dear Neighbours,

Our Davenport community is one of the most diverse and dynamic in Toronto, stretching from Ossington/Winona in the east to the Kitchener GO/UP Train tracks in the west and from Eglinton in the north to Sudbury in the south. As your City Councillor and a Deputy Mayor for Toronto, I am honoured to have the privilege to work with amazing residents, organizations and businesses to achieve our vision for a neighbourhood that is affordable, livable and safe.

Over the years, our neighbourhood has been changing and growing, with new neighbours joining us and new opportunities and challenges to face. I believe the best way to build a stronger Davenport is together and I have always championed the inclusion of residents into the decision making process.

Together, we have created and enhanced our parks like we are doing at MacGregor Park right now. We're building af-

fordable housing to help seniors stay in our community at 640 Lansdowne, and we have organized to proactively shape new development and ensure they benefit us, like the additional childcare space, the new Wallace Emerson Community Centre and the expanded park at the Galleria Mall redevelopment.

I know there is more to be done, and I am committed to working with you to get it done. Let's create the north and south West Toronto Railpath extensions, continue to improve our parks system, build our flood protection infrastructure, improve road safety, expand transit service with 5 new local stations, and work with small businesses to have safe and thriving main streets.

Residents know their neighbourhoods best, so I'm launching our "Davenport Today and Tomorrow Town Halls" because I want to have a conversation about the Davenport

we want. What traffic improvement or park upgrades does your street need? How can we make you school areas safer for children? Or, what local services would you like to see? Come join us at one of our Town Hall dates listed below!

I write this newsletter twice a year in addition to my monthly e-newsletter to share important information, meetings and events with our community and I hope you find it informative and helpful. As always, my office is ready to help and should you require anything now or in the future, please do not hesitate to contact me. My team and I feel privileged to serve you.

In community,

Ana .

Huge thanks to the entire Aangen Team for the incredible work you do to provide meals to vulnerable residents!

Great to meet residents at the Davenport Perth Neighbourhood Community Health Centre Seniors Picnic!

Davenport Today and Tomorrow Townhall

Join me at our Davenport Today and Tomorrow Townhalls! Bring your ideas and ambitions and together, we'll build a community we are all proud to call home!

Bloorcourt Parkettes

The City of Toronto and the Bloorcourt Business Improvement Area are partnering to create 3 new parkettes on Bloor St W! Located at Bartlett Ave, Salem Ave and Concord Ave, the parkettes will add custom wooden seating, new plantings, vibrant laser cut accents and signage along bustling Bloor St W! Construction is expected to begin in 2020.

Streetscape Upgrades at Bloor & Concord.

Affordable Seniors Housing & Long-term Care at 640 Lansdowne Ave

I am pleased to share that that City Council has approved a partnership with Magellan Community Charities for the construction of 256 long-term care beds and 65 affordable seniors housing units at 640 Lansdowne Ave! Working together with the community, the creation of affordable seniors housing was a clear priority for this surplus

City land and I am proud that we are delivering on this commitment.

A new public park will also be created and the City is looking to attract additional local employment uses to the rest of the site. As the design process begins, I look forward to keeping you informed throughout this process.

Dufferin Grove Park Northwest Improvements Update

Comprehensive consultation and design work on upgrades to the Dufferin Grove Park clubhouse and skating rink area is underway right now! Since 2016, City staff have been working with residents, park users and groups who formed a Community Resource Group and with the public to understand and incorporate the community's ideas into prelim-

inary concepts which were shared at a community meeting this April.

The project team wants to hear your feedback and I encourage you to stay tuned for the next public meeting this summer. You can also share your comments and find more information by visiting www.dufferingrove-northwestrevitalization.ca/

Earlscourt Park Upgrades!

Upgrades are coming to Earlscourt Park! Starting in 2020 a new streetscaping project along St. Clair Ave W will install a series of "wave benches", creating a series of alcoves where neighbours can meet up to enjoy some ice cream, take a rest or enjoy the park vista.

The washrooms in the park will also get a complete renovation in 2020 to serve our nearly finished playground, which we will be opening on July 1st @

New seating will help activate Earlscourt Park.

1pm. I am very happy to share we have also secured funding for a splashpad to be completed in 2021. Stay tuned for a public meeting in the fall!

Bloor Bike Lanes

The City of Toronto is preparing to start consultations on the Bloor Bike Lanes westward extension to High Park. The success of the current lanes, which were made permanent in 2017, is due to the robust consultation and consensus-based solutions implemented to address the various traffic, pedestrian/cyclist safety, and business concerns. I look forward to continuing this spirit of collaboration as the consultations get set to begin at the end of this year.

Splashpad Coming to Davenport Village Park!

I am happy to share that a new splashpad is coming to Davenport Village Park! We are securing this new amenity through a community benefits agreement for 980-990 Lansdowne Ave development, and construction will begin next year!

THE GREEN LINE

The Green Line is an ambitious project to transform the Hydro Corridor, running through St Clair West and along Geary Ave towards downtown with a series of connected parks and active transportation trails. The City in partnership with Park People has completed its draft Implementation and Masterplan. Detailed design consultations for the new parks between Geary Ave and Davenport Rd will be starting later this year!

Stay tuned and get involved as we advance this exciting project! You can find more information at www.anabailao.com/greenline

Proud to have worked with the community from the start to advance the Green Line!

Lansdowne Station Canopy will protect riders.

Lansdowne Station Accessibility Upgrades

Major accessibility upgrade work at Lansdowne TTC Station is starting this May to install new elevators, barrier free entrances and public art. Once construction finishes in 2021, Lansdowne Station will also include an overhead sidewalk canopy which we worked hard to secure in order to protect TTC riders waiting for the bus from the elements.

Lisgar Park Upgrades Starting

Based on resident feedback, the City is starting upgrades at Lisgar Park to install a new more colourful granular surface, improve drainage, promote healthier tree growth and install a gate for the children's play area. Work is expected to finish in July.

New BIA on Rogers Rd

This April, merchants along Rogers Rd, west of the GO Barrie Corridor met to start the voting process of creating a new Business Improvement Area (BIA)! The City has a strong history of working with local BIAs on our main streets to implement new murals, seating, greenery, community festivals and more!

With the incredible mix of diverse restaurants, shops and services on Rogers Rd, I am excited about the creative opportunities ahead! With a new StreetARToronto sponsored mural recently completed adding a serious splash of colour, and street banners already up, the future is bright on Rogers Road!

Proud to join artist Christiano De Araujo to celebrate the beautiful new Rogers Rd Mural!

Amazing to join June O'Leary in celebrating her Wish of a Lifetime visit to her old stomping grounds at the former Carleton Village Public School (now Toronto Police 11 Division). You inspire us all!

Peel/Gladstone Reconstruction

The City is planning major reconstruction on Peel Ave and Gladstone Ave to increase safety, replace the road surface and connect local cycling routes now that the “Dufferin Jog” is no longer used. The proposed design includes contraflow buffered bike lanes, on-street parking, street trees and narrowed lanes to create a safer, neigh-

bourhood-oriented streetscape. The design responds to the 72% drop in traffic volumes since the opening of the Dufferin Bridge and the significant development and residential growth in the area. Construction is scheduled for 2020 and I encourage you to review the design and share your feedback at www.toronto.ca/peelgladstone

St Clair West Transportation Masterplan

The City of Toronto is working to resolve the chronic traffic and safety concerns at St. Clair Ave W & Old Weston Rd through the St. Clair West Transportation Master Plan. When complete, the project will widen St Clair Ave, extend Davenport Rd to Union St and up to

Keele St, create a new underpass connection to Gunns Road, and extend the West Toronto Railpath up to the Lavender Creek Trail. I will be working hard to secure full funding for this project and look forward to keeping you updated as this project progresses.

Oakwood Village Cycling Connections

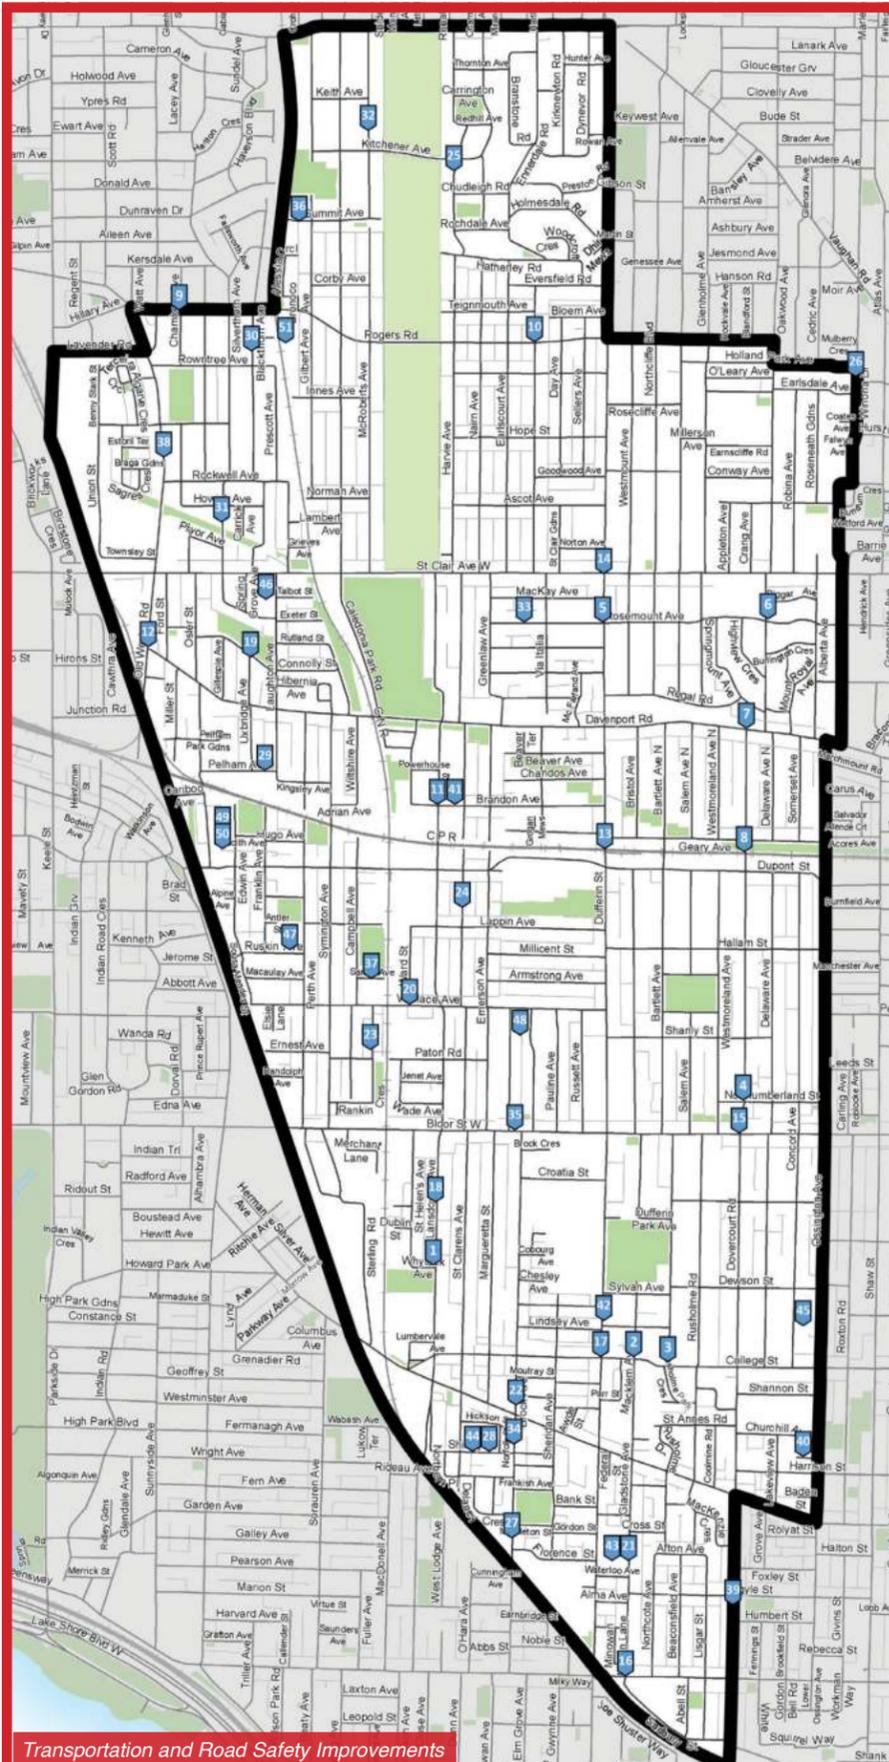

The City is beginning consultations on creating a safe cycling network between Davenport Rd and Eglinton Ave W including a north-south spine along Northcliffe Blvd and an east-west spine on Rosemount Ave. I hope you can attend the public meeting on June 18th at 6:30pm (Location TBD) to learn more and share your comments with the City.

Springmount Ave/ Regal Rd Safety

My office has received various correspondence regarding an intersection redesign project installed at Springmount Ave and Regal Rd. In order to discuss options to improve this intersection with the community, City staff will be hosting a community meeting on May 7th at 6:30pm at Winona Senior Public School (101 Winona Dr) and I encourage you to attend.

Improving Snow Clearing

Many residents across our community contacted me this winter about gaps in snow clearing services where sidewalks and roadways were covered in ice sheets and snow. As someone who walks around our community every day, I share the frustration that many of us have experienced and I have joined with my colleagues in asking for a review. I believe that snow clearing services should not be dependent on what part of the city you live in. The City is conducting a review to see how we can maximize our service levels. As part of that review, I successfully moved a motion to have staff report back on the possibility of insourcing some of this work to improve service for Torontonians.

1. Traffic light on Lansdowne Ave, at Whytock Ave – installation 2019
2. Traffic light on College St, at Gladstone Ave – installed
3. Traffic light on College St, at Havelock St – installed
4. Traffic light on Dovercourt Rd, at Northumberland St – installation 2020
5. Traffic light on Dufferin St, at Rosemount Ave – installation 2019
6. Traffic light on Oakwood Ave, at Rosemount Ave - approved, but being reviewed further
7. Traffic light on Davenport Rd, at Dovercourt Rd – installation 2020
8. Traffic light on Dovercourt Rd, at Geary Ave – installation 2019
9. Traffic light on Rogers Rd, at Chambers Ave – installation 2019
10. Traffic light on Rogers Rd, at Boon Ave – installation 2020
11. Traffic light in Lansdowne Ave, at Brandon Ave – approved
12. Review of Davenport Rd and Old Weston Rd intersection for potential safety improvements
13. Red light camera – Dufferin St, at Geary Ave – approved
14. Red light camera – Dufferin St, at St. Clair Ave West – being reviewed
15. Red light camera – Dovercourt Rd, at Bloor St. West – being reviewed
16. Red light camera – Gladstone Ave, at Queen St. West – being reviewed
17. Red light camera – Dufferin St, at College St – being reviewed
18. PXO on Lansdowne Ave, between Whytock Ave and Bloor St. West – relocation further north – 2019
19. Connolly St and Uxbridge Ave All-Way Stop Control potential safety improvements – being reviewed
20. Wallace Ave and Ward St All-Way Stop Control potential safety improvements – being reviewed
21. Speed humps on Gladstone Ave, between Dundas St. West and Peel Ave – being reviewed
22. Speed humps on Brock Ave, between Dundas St. West and College St –awaiting installation
23. Speed humps on Rankin Cres – awaiting installation
24. Speed humps on St. Clarens Ave, between Dupont St and Lappin Ave and between Lappin Ave and Wallace Ave – being reviewed
25. Speed humps on Harvie Ave, between Redhill Ave and Hatherley Rd – being reviewed
26. Speed humps on Winona Dr, between Earlsdale Ave and Vaughan Rd – being reviewed
27. Speed humps on Brock Ave, between Florence St and Dundas St. West – installed
28. Speed humps on Shirley St – installed
29. Speed humps on Pelham Ave, between Uxbridge Ave and Laughton Ave – installed
30. Speed humps on Blackthorn Ave, between Rowntree Ave and Rogers Rd – installed
31. Speed humps on Silverthorn Ave, between Pryor Ave and Rowntree Ave – installed
32. Additional speed hump on McRoberts Ave, between Kitchener Ave and Keith Ave – installed
33. Speed humps on Rosemount Ave, between Dufferin St and Greenlaw Ave – installed
34. Road resurfacing of Norfolk St, between Shirley St to Hickson Ave – 2019
35. Reconstruction of Public Lane bounded by Bloor St. West, Margueretta St and Brock Ave – 2019
36. Road resurfacing of Summit Ave, between Gilbert Ave and Bronoco Ave – 2019
37. Utility cut grind and pave of Sarnia Ave – 2019
38. Major road resurfacing of Old Weston Rd, Turnberry Ave to St. Clair Avenue – 2019
39. Reconstruction of Dovercourt Rd, Queen St. West to Dundas St. W – 2020
40. Road resurfacing of Ossington Cres – 2019
41. Road resurfacing of Brandon Ave, between St. Clarens Ave and Lansdowne Ave – 2019
42. Speed limit reduction to 40 km/h on Dufferin St, between Queen St. West and Sylvan Ave
43. Alexander Muir/Gladstone Avenue Junior and Senior Public School – School Safety Zone installed
44. Shirley Street Public School School Safety Zone– installed
45. Dewson Street Junior Public School School Safety Zone - installed
46. St. Paul VI Catholic Elementary School School Safety Zone - installation 2019
47. St. Luigi Catholic Elementary School School Safety Zone – installation 2019
48. St. Sebastian Catholic Elementary School School Safety Zone – installation 2019
49. St. Rita Catholic Elementary School School Safety Zone – installation 2019
50. School Pick-up/Drop-off Zone for St. Rita’s Catholic School – 2019
51. School Bus Loading Zone at St. Nicholas of Bari Catholic School– being reviewed

Transportation and Road Safety Improvements

Galleria Mall & Wallace Emerson Community Centre/Park

As some of you have noticed, demolition is taking place in a portion of the Galleria Mall as the developer prepares to begin construction. The 1st phase includes 2 mixed-use buildings which will deliver upfront the 150 affordable rental units our community worked hard to secure.

Construction will also begin on our new Wallace Emerson Community Centre, including the new 62 space childcare centre, and a portion of the 25% ex-

panded park. Resident input over the last 2 years has shaped the design for the new heart of the Wallace Emerson neighbourhood and the masterplan includes a public square with water jets, skating trail and ice pad, soccer field, a BMX/skateboarding area, children's play structures and more!

Our community worked hard to secure these community benefits and at my request, the developer will be holding regular meetings to inform the community of up-

The new Wallace Emerson Park and Community Centre will be the heart of our growing community!

coming construction phases and site progress. I hope to see you at the first meeting on June 11th at 7pm at Wallace Emerson Community Centre, 1260 Dufferin St.

Thank you to all the residents who shared your ideas regarding redevelopment at Dufferin Mall

Dufferin Mall

Earlier this year, the owners Dufferin Mall, Primaris REIT, hosted 2 open houses to share their ideas for redevelopment on the northern portion of the site. Their plans shown at the open house include 4 towers up to 39-storays high, park space, rental housing and a mall expansion. A formal application is expected to be submitted later this year, which will commence the City's rigorous formal review process including further consultations. I will keep you updated once an application is received.

1800 St Clair Ave W

City Council recently approved a new development at 1800 St. Clair Ave W which will transform abandoned City-owned lands into a new-mixed use mid-rise and townhouse development containing:

- 276 units in a mid-rise and townhouse development including 74% 2 and 3-bedroom family-sized units and 20 affordable townhouse units, built in partnership with Habitat for Humanity.
- Ground-floor retail to activate St. Clair Ave W.
- 857 m² expansion to SADRA Park.
- \$400,000 in Section 37 funding secured to invest in local community benefits projects.

This development is an example of how we can work together to leverage City-owned lands to create family-oriented complete communities and I look forward to continue this work with our community.

Bloor Dufferin Development

Despite numerous efforts to keep the Bloor Dufferin school lands in public hands, the TDSB sold the site in 2016. Since the sale, I have been working with community members and groups to advocate for and work to secure our community priorities of onsite af-

fordable housing, childcare, greenspace and the creation a community hub. The developer has appealed the application to the Local Planning Appeal Tribunal but they continue to make revisions to the plan.

Ensuring Geary Ave Remains Vibrant

The Geary Ave corridor is a burgeoning hub for artists, cultural organizations, light-industrial and small commercial businesses. With development pressures and rising rents quickly displacing these sorts of uses in other parts of our city, I have requested the City's Planning and Economic Development and Culture Divisions to undertake a comprehensive study of Geary Ave. By

proactively working with the community to understand the challenges they face and to plan for the future, we will be able to protect and foster the continued success of this important cultural corridor.

I look forward to working together with all the local residents, businesses and organizations on this important project!

Davenport Village Final Phase

The City held a community meeting in February to discuss a revised proposal for the final phase of development in Davenport Village. The revised proposal includes a dedicated childcare centre, open space, and play areas for local residents, with 3 rental apartment buildings and townhouses blocks, totalling 960 units. The project also includes the restoration of the heritage-designated Foundry Company Building, which includes a 2-storey addition, con-

version to residential uses and retention of a ground floor commercial unit to complement the restored commercial/retail building across the street.

The developer agreed at the meeting to construct a splash pad at Davenport Village Park and to install a traffic light at Lansdowne Ave and Brandon Ave. I am working with our City staff to have these improvements completed as quickly as possible.

861 St. Clair Ave W

On March 5th, the developers of 861 St Clair Ave W held an open house to discuss their proposed 10-storey, 80-unit mixed-use development containing ground floor retail and patio space to this portion of St. Clair Ave W with new businesses. The project is currently before the Committee of Adjustment for Minor Variance proposals to the permitted as-of-right mid-rise zoning on St. Clair Ave W and I am working to secure community benefits that would be directed to improving our local schools.

Taking Action to Create Affordable Housing Now!

I strongly believe Toronto has a responsibility to lead our efforts to improve housing affordability for residents. By working hard with our community partners, I am proud that we are taking concrete actions right now to expand our rental and affordable housing supply, repair social housing, empower people to overcome homelessness and plan for the future actions we must take.

This April, I joined Prime Minister Justin Trudeau to welcome a \$1.3 billion federal investment to repair our social housing and ensure residents have a safe, affordable and decent place to live. For years, people said it couldn't be

done. So we worked hard with community advocates, housing providers and people across the country, to successfully make the case that investing in housing is not only the right thing for people but the smart thing for our continued prosperity. Our efforts are paying off and I look forward to our Provincial Government coming to the table to recognize the same.

Housing Now Initiative

Through our Housing Now initiative we will leverage 11 City-owned sites in partnership with private and non-profit partners to construct 10,000 housing units containing a minimum 3,700 affordable-rental units. Partnership proposals will be judged on the amount and level of affordability, not land sales prices and through long-term land leases, the City is further enabling our non-profit sector to compete. I look forward to working with our partners to get this housing built!

Expanding Housing Allowances

Housing allowances are a proven effective and rapid solution to help people get from the shelter system to stable and supportive housing. I am proud that City Council approved my joint-motion to investigate ways to fund additional allowances, including creating a new tier of the Municipal Land Transfer Tax on

Joining Prime Minister Justin Trudeau to announce a major federal investment in housing

luxury homes over \$3 million. It's "housing paying for housing" and it's the sort of rapid actions we can take to expand opportunities.

Expanding Secondary Suites and Laneway Suites Citywide

Improving affordability also means doing more of what works. Over 70,000 Torontonians live in secondary suites like basement apartments, which are often more affordable, and interest in laneway suites is growing quickly. That's why I'm proud that we approved regulation changes to make it easier to create secondary suites, and we are investigating expanding laneway suites across Toronto.

Supporting Vulnerable Women with Sistering

As part of our transformation of To-

ronto Community Housing I am proud to be working with Sistering on the potential transfer of two currently vacant TCH properties to respond to the growing demand for homelessness services. I have also helped secure funding for improvements to the current facility for patrons.

2020-2030 Housing Plan Consultations

As we make progress right now to improve housing affordability, we are also starting consultations for our 2020-2030 Housing Plan to ensure we continue investing and creating the housing tools we need to expand opportunities for all Torontonians to have an affordable and dignified place to call home. Consultations begin this Spring and you can find all the info at www.anabailao.com/housingconsultations.

City Council Approves 2019 Budget

City Council has approved Toronto's 2019 Budget which makes investments to expand services Torontonians rely on while managing our expenses in response to a softening real estate market and land transfer tax revenues.

With continued investments to expand transit, affordable housing, and our TransformTO climate action plan, the City is phasing out garbage bin subsidies to ensure we

reflect the true cost of our solid waste services and further incentivize recycling and composting in our communities. To ensure fairness for seniors and low-income Torontonians, those who already receive a discount on their water bill will also receive a discount on their bin fee.

This year's budget includes roughly \$17 million in new investments to extend library operating hours, establish more youth hubs

and ensure our Student Nutrition Program continues to reach over 200,000 students. The City is also creating an additional 210 childcare subsidies and deepening affordability of existing ones.

Our capital investments are also paying off with over 100 TCH units set to re-open, new buses purchased to support TTC ridership, and additional Vision Zero and road infrastructure initiatives happening locally. To

continue these investments, we must reduce reliance on the land transfer tax and diversify our tax base to protect against the kinds of shocks we experienced this year and City Council will receive a report on how we can do this as part of our 2020 Budget Process.

Thank you to everyone who attended our Davenport Budget Townhall! I look forward to continuing to work with you to improve our City for everyone.

TTC Subway Upload

The Provincial Government's proposed "subway upload" raises important questions and concerns about the integrity of our connected bus, streetcar and subway system, the value of our stations and assets, and the possible upheaval to our approved transit network plan.

In March, City Council approved my motion to reaffirm the City's position against the upload and commence robust public consultation campaigns, because we all expect our transit system to run reliably, and as riders and residents, I strongly believe we need to be involved. You can find more information on these consultations at www.anabailao.com/TTCupload.

Cleaning up Cigarette Butts

Cigarette butt litter in front of restaurants, bars and businesses creates unsightly streetscapes and environmental impacts. With all of us working hard to cleanup our neighbourhoods this spring, I moved a motion at City Council for City staff to examine requiring businesses to clean up and install cigarette butt receptacles.

Celebrating International Women's Day with these amazing women who work hard for our communities at City Hall

Basement Flood Protection Study Beginning

With a changing climate, Toronto is experiencing more severe storms, increasing pressure on our sewers, rivers and drainage systems and contributing to the basement flooding which affected numerous homes and businesses right across our Ward.

Following my requests in 2018, I am happy to share that Toronto Water is commencing their Basement Flood Protection study work locally, with consultations beginning this year. These consultations will plan for major infrastructure improvements across Davenport, from Beaconsfield Village, to Wallace Emerson and Corso Italia.

The Dovercourt Boys and Girls Club Christmas Hampers continue to support hundreds of families every single year! Congrats to everyone on an amazing job!

Community Office

My office is available to assist you with City-related issues and programs to help save you money. You can contact me by calling 416-392-7012 between 8:30am and 4:30pm or emailing councillor_bailao@toronto.ca. **My Community Office is located at 1240 Bloor St W** is open to assist you anytime on Wednesdays, Thursdays and Fridays from 1pm to 6pm.

Gabinete Comunitário

O meu escritório está disponível para apoiá-lo em assuntos e programas municipais para que possa economizar. Pode-me contactar através do 416.392.7012 entre as 8:30 e as 16:30 ou pelo email councillor_bailao@toronto.ca. **O meu Gabinete Comunitário fica no 1240 Bloor St W** e está aberto quartas, quintas e sextas-feiras das 13:00 às 18:00 para ajudá-lo da melhor forma.

Oficina Comunitaria

Mi oficina está disponible para ayudarlo con asuntos relacionados con la ciudad y programas para ayudarlo a ahorrar dinero. Puede ponerse en contacto conmigo llamando al 416-392-7012 entre las 8:30 am y las 4:30 pm o enviando un correo electrónico a councillor_bailao@toronto.ca. **Mi Oficina Comunitaria está ubicada en 1240 Bloor St W** está abierta para ayudarlo en cualquier momento los miércoles, jueves y viernes de 1 a 6pm

Ufficio Della Comunità

Il mio ufficio è disponibile per assisterti con problemi e programmi relativi alla città per aiutarti a risparmiare denaro. Potete contattarmi chiamando il 416-392-7012 tra le 8:30 e le 16:30 o inviando un'e-mail a councillor_bailao@toronto.ca. **Mio ufficio della comunità si trova a 1240 Bloor St W** è aperto per assisterti in qualsiasi momento il mercoledì, il giovedì e il venerdì dalle 13:00 alle 18:00.

Fairbank Trunk Sewer Project

The City is advancing construction plans for the Fairbank Storm Trunk Sewer project. Construction is intended to begin in 2020 ending in 2025 and use tunnel boring machines to construct a large sewer to capture stormwater and reduce basement flooding.

Toronto Water staff will be joining us at our "Davenport Today and Tomorrow Townhall" on May 13, 2019 at 6:30pm at Fairbank Memorial School (555 Harvie Ave) to discuss the upcoming project construction. They will also be sharing information on the Charles Caccia Park Stormwater Retention Tank which is a vital storm water infrastructure component and has now been activated as a result of our efforts!
