

# Hundreds of cows, sheep being punched, starved and the sick are thrown overboard

Just this month, dozens of calves aboard a livestock transport ship which departed from Australia, died after arriving in Israel. The Times of Israel reported that it took workers five agonizingly long days to unload the ship...days in which the animals suffered in hot, miserable conditions which ultimately resulted in many deaths. When being unloaded from the ships, the feces covered cows are hit, punched, and forced to move with electric shock prods.

A spokesperson with [Israel Against Live Shipments](#) has described this as one of the cruelest situations he has encountered. These animals are bred to die - is that not punishment enough? Must they be made to suffer in squalid, hot conditions first? Must they be treated as if they cannot feel? This torturous practice must end!

Watch a video of the cows being shocked with prods to leave the ship [here](#).

Watch a video of the calves which perished [here](#).

458. Patrick Mertens		living things that have no voice like that. How can people look away and pretend that nothing is wrong ?????? Why don't you politician go on such a ship for 4 weeks so that you can experience the situation live. But you are all too cowardly to see all this suffering. You only see \$\$\$\$\$\$ at all costs and think I see nothing and I feel no pain so I don't care !!!!! You only wake up when something happens with your own pets, children, women and family members and then you come to ask for help. The world is being destroyed by people like you !!!!!!!!! If you are human and have courage, then you spend 4 weeks on a ship like that and then you learn a little bit what the word "HELL" means.

511. june bullied	ON	june bullied stop exporting animals. they are treated cruelly. the cowardly abusers need to be made an example of with heavy fines and long term prison sentences Transoceanic live shipping of animals is unbelievably cruel. Please ban live shipping of animals Remember, livestock has. Evome the largest biomass of animals on Earth, edging out all other wildlife species. Deforestation, oceanic dead zones, poisoned aquifers, the growth of antibiotic resistant diseases, all because of cattle and livestock for profit industries. We need to move toward a plant diet for humans, and we need to move fast, for time is ticking on the climate chaos clock. Not only is it the compassionate choice, it's the only choice for survival on earth. Ban live shipping of animals. Go Veg. Do it for our children.

718.	Ravanna Schonlau		Animals Matter. They do have feelings and deserve RESPECT.  I saw videos of sheep , cows and pigs covered with there faeces , in crammed pens arriving into Israel The temperature in those pens was over 42 degrees . The footage was truly horrific , the animals were in truly terrible distress . I could not believe that you would allow your sheep and cattle to be treated like this ,It really is a shocking disgrace for Australia . It looked like there waste had been thrown over the animals . The temperatures within those pens was absolutely roasting hot , they could not reach and water troughs ( that's if there actually was any ) it is completely unacceptable to treat your animals that were in transit in such ATROCIOUS CONDITIONS .
