Sign a Petition. Save an Animal.

June 17, 2020

To Whom it May Concern:

We are Janelle Babington and Penny Eims, animal welfare petitioners with AnimalVictory.org. We recently created a petition asking for the primates at Oregon's National Primate Research Center to be treated humanely. It is our understanding that video footage taken at this facility shows primates being caged with no mental stimulation, and subjected to cruel and unnecessary experiments.

Monkeys are highly intelligent, social and emotional animals who deserve to be treated with kindness and dignity. Attached you will find our petition with thousands of signatures from people who demand that the NPRC's test subjects be treated with compassion.

Thank you for your time and consideration. We would love to hear back from you about our concerns and how your research facility is working for better conditions for the primates.

Very Truly,

Janelle Babington and Penny Eims

[Oregon Lab Uses Taxpayer Dollars To Torture Monkeys](#)

A primate center in Hillsboro, Oregon, has been accused of mistreating monkeys for years. A PETA investigation revealed that the National Primate Research Center has been using taxpayer dollars to "inflict pain and suffering" on thousands of primates who are held at the facility in small, metal cages.
