Sign a Petition. Save an Animal.

September 16, 2020

Dear District Attorney Warren Montgomery,

We are Janelle Babington and Penny Eims, animal welfare petitioners with AnimalVictory.org. We recently created a petition on behalf of BoeBoe, a puppy who was left to die inside of a car parked at a Walmart in Slidell, on a hot day. The person identified as being responsible for this cruel incident is 27-year-old Brittney Robertson.

BoeBoe was locked inside of the car for over an hour, and by the time he was discovered, he was spitting up blood and crying in pain. At a veterinary clinic, his little body registered 109-degrees and he was declared brain dead. It is our understanding that Robertson has been charged for this deadly situation and **over 12,500 people have signed the petition** (please see link below) asking for her to be severely punished for her gross negligence.

It's our understanding this case has been assigned to you and are requesting any updates on the investigation. We thank you for your time and consideration in this important matter.
