

# New Undercover Video Shows Neglect, Filth and Death At Another Dairy Farm

Please join us in asking the Pennsylvania State Police to investigate and charge anyone who is involved in these abhorrent practices at the Reitz Dairy Farm. These cows already give their life to produce milk for humans. They should not be hit or kicked. They should not be living in their own feces. They should not be suffering with untreated injuries and infections.

Please sign and let the authorities know that this is not okay. A full investigation by the authorities must happen and charges must be made against anyone found to be involved in these neglectful conditions.

Click [here to watch](#) the PETA undercover investigation.

233.	Cindy Donovan	MN	To my friends and the general community. Please join me in watching this film. Then sign the petition and donate. This is not the only farm that treats its animals with extreme cruelty. There is a tremendous amount of animal cruelty on farms and throughout our country that could easily be stopped with frequent, unannounced government staff visiting each site as well as installing a liberal amount of video cameras at every site. Everyone working with or owning any animal should be held accountable for any and all abusive acts perpetrated upon the animals in their charge.
