Dear Prosecutor Binder,

We are Janelle Babington and Penny Eims, animal welfare petitioners with AnimalVictory.org. We recently created a petition asking for Shanan Weigum to be held accountable for the deaths of 15 horses and 11 foals at his property in Mercer County, North Dakota. It is our understanding that Weigum fed moldy hay, and denied water, to his livestock - the outcome of this neglectful behavior was catastrophically deadly.

We, and **over 14,000 of our supporters**, hope to see Shanan Weigum receive the maximum sentence for his felony animal cruelty charge. We are presenting our petition to you now (please see link for signatures and comments) with the hope that this man will face serious repercussions for his treatment of the animals that were in his care.

We have been informed that the preliminary hearing is scheduled for March 24; please keep us updated about the status of this important case. We expect to see this man held accountable for the death of these innocent animals.

Thank you for your time and hard work on this case.

A Zap, North Dakota, man is accused of contributing to the death of 15 horses and 11 foals, and neglecting dozens of other horses. As reported by the Bismarck Tribune, deputies with the Mercer County Sheriff's Department made the grim discovery on February 20 at Shanan Weigum's property.. Weigum allegedly fed moldy hay and denied water access to the animals.
