

Sign: Find Killer Of Friendly 'Begging' Dolphin

A necropsy was done on the slain dolphin's body and it revealed that he was still alive when someone stabbed him in the head with a spear-like object. NOAA experts believe that this dolphin was begging at a boat when he was cruelly slain. A \$38,000 reward has been offered for information leading to the arrest and conviction of the person responsible for this heinous crime. Please help us spread the word that this ruthless killer must be found and punished to the fullest extent of the law!

Read more about this crime at this link to the [Pet Rescue Report](#).

NOAA is accepting anonymous tips at the NOAA Enforcement Hotline: 1-800-853-1964.

4.	Jeanne Lofland	OH	Until we make the criminals fear the punishment again this carp is going to continue to get worse. There are no consequences for behavior anymore and hasn't been any for decades. I'm tired of the deaths and abuses of babies, kids, animals and add the elderly into the mix now. This dolphin was doing what he always did and some a.....e murdered him. There's no rhyme or reason to it. I've reached the conclusion that the punishments should mirror the crimes. In other words an eye for an eye and make it public. I'm 66 years old and I'm tired of all the criminals being pampered.
