

Sign: Stop Forcing Emaciated, Senior Elephant To Work At Festival

Update Sept. 2019: The Millennium Elephant Foundation writes: Tikiri is back home with her owner in Kegalle. Millennium Elephant Foundation (MEF), confirms the owner has been treating Tikiri with Ayurvedic medicines to support for a while since MEF introduced and recommended Ayurvedic doctor to him years back.

Because the elephant is privately owned, nothing can be done without her owner's consent. As reported by [The Mirror](#), Tikiri's owner, Randenige Thilakarathna, assures the public that the elephant is receiving the best care and she is recovering from a stomach issue, telling the news agency, "We have people with her all the time. We would never neglect her. She is being well looked after and loved to make sure her last years are as happy and healthy as can be."

Update 8/28/19

UPDATE: Your signatures were sent this morning along with the letter outlined below to Prime Minister Ranil Wickremesinghe. A donation has been made by Animal Victory to Save Elephant Org as well. Please continue to share and sign until Tikiiri gets the medical attention she needs. Read our letter here

Update: It has been confirmed that Tikiiri has been returned to her owner and she is receiving medical treatment for what is described as an "eating disorder" related to her advanced age. Wildlife conservationist Dr Prithviraj Fernando tells RepublicNext, "The elephant is in the last stage of her life and her condition is critical. Making the animal participate in a pageant under such conditions cannot be justified on any grounds."

Update 8/16/19: A new image of Tikiiri appears to show the aging elephant near death. The shocking photos of the 70-year-old elephant have sparked worldwide concern and calls for her to receive urgent medical care. The outcry has reached John Amaratunga, Sri Lanka's Minister of Tourism, who has ordered veterinarians to "immediately" visit Tikiiri, reports [The Mirror](#).

Though Amaratunga seems to be concerned for the elephant's welfare, other government officials claim that the aging elephant is "fine" and that she merely "struggled to get up" after sleeping when the concerning image was taken. Please continue to share this petition and let government officials know that the world is watching!

Tikiiri obviously needs medical care - her body is skeletal! The Save Elephant Foundation writes of Tikiiri's suffering:

"She walks many kilometers every night so that people will feel blessed during the ceremony. No one sees her bony body or her weakened condition, because of her costume. No one sees the tears in her eyes, injured by the bright lights that decorate her mask, no one sees her difficulty to step as her legs are short shackled while she walks."

Not only should Tikiiri be allowed to stop working at the 10-day Perahera Festival, but she should be provided with medical care and a sanctuary to care for her for the remainder of her life. Tikiiri has suffered long enough.

34.	Judith Mistor	FL	This is an OUTRAGE! Where is the COMPASSION? Where is the HUMANITY? This is extremely shameful. This poor creature needs medical care. Although I am not a proponent of using animals in festivals for obvious reasons, but I would be much happier knowing that you were using a much younger and vibrant elephant in your festival and let this beautiful creature live out her days in peace. Seriously shameful that anyone can let a creature suffer like this for their own profit or gain.

If the prime minister does not find this horrid spectacle inexcusable and unnesseary torture and suffering caused to this poor soul whose life was stripped years ago only to entertain humans and fill the pockets of greedy owners, then the prime minister has no soul. This is a lack of decency and morality in allowing an animal to endure this sort of punishment. This poor elephants deserves to live whatever is left of its existence on this planet in the care of a sanctuary. It is unacceptable of these so called humans to watch and allow their animal to linger in this condition. Remove the elephant from its abusive owners and place in a sanctuary. Since this festival is about Buddha, why are his teachings being disrespected? It is my understanding that: Buddhism requires us to treat animals kindly: Buddhists try to do no harm (or as little harm as possible) to animals. Buddhists try to show loving-kindness to all beings, including animals. Do you think this makes Buddha happy?

She NEEDS MEDICAL ATTENTION IMMEDIATELY!!! She needs more food . AND she NEEDS a loving place , free of shackles and costumes to LIVE out the rest of the life that she has left , in peace , free, well fed , medical needs taken care of , with other elephants . She SHOULD be brought to a SANCTUARY ASAP IMMEDIATELY . The people who did this to her need to be charged with animal cruelty and animal neglect . If NO laws exist we need to petition their government till laws are made and enforced to protect all these beautiful , innocent animals . We need to stop them from doing this to another elephant too . Or any wild animal . And I'm sure they need laws to protect domestic animals to with strict harsh consequences to end this horrific treatment of animals . A 3 year old would be able to see she is sick , tired , in pain and starving . Open your eyes and hearts and set her free .</p> <p>♥ ♥ ♥ ♥ ♥ ♥ ♥ ♥ ♥ ♥ ♥ ♥ These people needs to have a heart ♥ and get her medically treated, better fed and put in a sanctuary . I beg of you to stop this practice and release these animals to sanctuaries where they can be safe and well cared for and never abused again!
4351. Charles Witsaman	FL	This situation is very disturbing, and reflects badly on your country. If this treatment of animals, and most especially intelligent elephants, is isolated then it's bad. Animal Slavery...Unless humans are willing to see reality and accept the utter evilness of it, they are doomed to live in a state of false, untrue, void and empty principles, wrapped up in the greatest form of hypocrisy and Injustice! All Life is Beautiful, more so the lives of the Innocent. Those who live their lives with no political, monetary, or egotistic agendas. Would it be proper to treat our own children the same way? Our Mentally, or Physically Disabled Children? They can not vote after all, and can not decide for themselves, but are at our Mercy, dependent and reliant on us, Adults. All Life deserves respect and deserves to be allowed to Be, especially those who dwell in Innocence. And yes, What goes on in Slaughterhouses and Industrial Animal Farms is Man made pure Hell and should never be allowed. Marilyn Platt	NY		Its time for man(KIND) to evolve beyond kidnapping, enslavement, cruelty, violence, primitive (murderous) barbarism and sociopathic behavior or GO TO JAIL as they are a danger to civilized society. Evidence supports a direct link between animal cruelty and violence against humans. "This extremely violent

4442. Monica Odgers	WI	<p>and depraved act of animal cruelty is particularly disturbing, not only because of the unimaginable suffering animals are forced to endure, but also because of the implications such cruelty hold for the safety of the community at large.” Peter Wood. “Animal cruelty is not a harmless venting of emotion in a healthy individual; this is a warning sign that this individual is not mentally healthy and needs some sort of intervention. Abusing animals does not dissipate these violent emotions, it may fuel them.” Allen Brantley, FBI Supervisory Special Agent. FBI’s “homicidal triad” has been established as a reliable key to future dangerousness to humans: 1) Animal Abuse, 2) Firestarting, 3) Bedwetting. Those who harm humans almost always also harmed animals. Harming/murdering helpless animals are where serial rapists and killers get their start. John Douglas, FBI PROFILER, shares how he's seen how animal cruelty is a major red flag for future crimes of horrific natures. https://soundcloud.com/ospca/john-douglas-fbi-profiler-part-1-ontario-sPCA-animals-voice-pawdcast-season-4-episode-16 Violence begets violence. This is horrific torture, suffering, neglect and disregard for any basic needs of these animals, of which, clearly trapped/enslaved, they are dependent upon. Humans, believing to be evolved and of superior intellect, must use their superior intellect to research “cruelty free” options. Someone, with ANY intelligence, can solve and resolve this for a humane outcome that is non-exploitative, compassionate and benefic for animals. Humans with allegedly “superior intellect ” should use their “superior minds” to find suitable options/solutions to match their “superior intellect,” rather than, as sociopaths, kidnap, enslave, exploit, abuse, torture and murder innocent animals. No animal should ever be neglected, endangered, kidnapped, enslaved, exploited, abused, molested, tortured and/or murdered nor denigrated to satisfy the selfish ignorant whims and needs of humans: not for GREED, make room for cattle/crops for cattle or palm plantations, entertainment, sport, customs/traditions, remedies, religion, food, fur/any body parts, soulless science, culls, sexual gratification, or sadistic “hunting” murder. ANIMAL ABUSER’S FINES CAN PAY: Those who endanger, destroy their home/habitat, disregard, displace, kidnap, exploit, imprison, neglect, disrespect, abuse, molest, torture, and/or murder animals must be imprisoned and/or pay for their psychiatric management (castrate rapists) and placed on an animal abuser registry. ANIMAL ABUSER’S FINES CAN PAY/or do LABOR: to build/support animal shelters/sanctuaries/relocation programs. Pay for/or do labor to: protected reserves, conserved areas, wild life crossings/bridges, fencing, cleaning up ocean/waterways, etc. Pay for spay/neuter/birth control programs. Pay for & install billboards, bus signs, street signs, post posters, wear sandwich board signs, pass out flyers, etc., for ANIMAL PROTECTION & CRUELTY FREE AWARENESS & EDUCATION. Pay for teaching/lecturing ANIMAL COMPASSION. PAY rescue groups for vehicles, gas, food, vet care, etc. Pay to release animals from labs, puppy mills, kill shelters, factory farms, fur farms, horse/dog/cat meat facilities, canned hunting, dog/cock/bull fighting, circus, etc. Pay to stop poaching/culls, etc. Pay for food, vet care, foster care/adoption, training for cadaver search/drug sniffing, emotional assistance/support animals, training animals for adoption to people with depression, autistic children, seniors with dementia, introverted teenagers, post traumatic stress disorder, or people with chronic or terminal illness. “We must remember in our dealings with animals that they are a SACRED TRUST to us. They cannot speak for themselves.” Harriet Beecher Stowe. Humans are called to be compassionate caregivers, protectors and stewards of our planet and its beings. Helping not harming. To create an environment where all beings are treated with respect and compassion. Never to die needlessly or cruelly. These vulnerable, innocent beings have the right to live “cruelty-free” in peace. “Every worm, every insect, every animal is working for the ecological well-being of the planet. Only we humans, who claim to be the most intelligent species here, are not doing that.” Sadhguru</p>

Nearby countries also are very cruel and allow people to starve and the hierarchy of castes system is sickening. We have some of your doctors over here, and I loved the Veterinarian, but not the medical doctor who can speak English but cannot seem to comprehend it. Maybe it is just that she is used to abusing people that are a lower caste than her. Get that elephant to reserve where they will take care of her. Shame.
