Sign a Petition. Save an Animal.

November 4, 2019

Attn: Indiana State Police,

We are Janelle Babington and Penny Eims, animal welfare petitions from AnimalVictory.org. We recently created a petition about the horrific conditions discovered in an undercover video at East Fork Farms in Browntown, Indiana and currently have 3887 signatures. The conditions revealed in the video, which was released by PETA earlier this month, are truly disturbing.

Pigs are being kept in filthy, constricting pens. Piglets have their tails chopped off without any form of pain relief and they are thrown around like inanimate objects. Pigs can be seen with open, gaping wounds and there are dead and dying piglets in plain view of their caged mothers.

Pigs are sentient beings who are already sacrificed for food - must they be made to suffer in inhumane conditions before they are slaughtered? Please accept our petition, with signatures from concerned and outraged citizens who want to see this situation fully investigated. Cruelty should never be acceptable.

We look forward to hearing back from you with a favorable update for those who have taken the time to speak out against this sickening situation. We will continue to publish the petition to create awareness with the hopes of a favorable outcome.

Thank you for your time and consideration.

Janelle Babington and Penny Eims
