Sign a Petition. Save an Animal.

February 18, 2020

Attn: John Ewald, Director of Public Affairs for NOAA Fisheries

We are Janelle Babington and Penny Eims, animal welfare petitioners from AnimalVictory.org. We recently created a petition on behalf of the slain dolphins discovered along the Florida coastline. The purpose of our petition was to spread awareness of the crimes, along with the hope that a viable tip would be called in. We are also hopeful that people will learn that they must refrain from feeding dolphins because it can ultimately cause them harm.

Cruelly Killed Off Florida Coast
- Animal Victory](#)

A huge reward is being offered for information leading to the arrest and conviction of whoever is responsible for killing dolphins found in Florida. According to NOAA, one of the dolphins, found with a huge head wound last week near Naples, was either shot or speared with a sharp object. Another dolphin, found the same week along Pensacola Beach, suffered a fatal shot in its side.

Nearly 6,000 people have signed the petition, which we are presenting to you now.

We would love to be able to let our supporters know if there is any new information in these animal cruelty cases. We look forward to hearing back from you.

Sincerely,

Janelle Babington and Penny Eims
