

# Reclaim and honor Dr. King by fighting back today!

We invite you to remember Dr. Martin Luther King, Jr. Today is his birthday and people are speaking out on the subways and streets all across the city.

*"Human progress is neither automatic nor inevitable... Every step toward the goal of justice requires sacrifice, suffering, and struggle; the tireless exertions and passionate concern of dedicated individuals."*

— Dr. Martin Luther King, Jr.

Dr. King was a radical, a protester, an activist, a political prisoner, and a visionary who devoted his life to eliminating poverty and racism. He was only 26 when he led the Montgomery Bus Boycott. The movement of which he was a part included thousands of primarily young people who were arrested, beaten, and demonized in the media.

Now our country and our city is involved in a new wave of struggle for social justice.

Unarmed Black youth continue to be killed by police with impunity while both Republican and Democratic politicians do little but call for protesters to calm down. They want our movement to go away.

Some say "Fighting back in the streets accomplishes nothing." Others tell us we have to "work within the system." But this is the same system that keeps letting killer cops walk free, and has always been based on racist injustice.

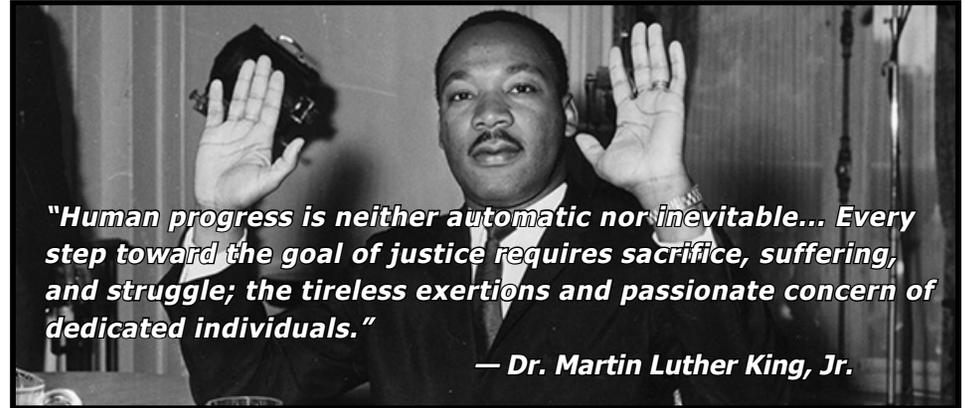

Dr. King showed that real change was won in the streets by people of all backgrounds and ages standing up to repression and saying, "We will not be moved!" That is the Dr. King we are honoring today.

Join us! If you've had enough with—racism, police brutality, gentrification and low wages—this movement is for you.
