

COHORT 2 - CASE STUDY

I AM MORE T.O. (Public Event)

Toronto Hub

November 29th 2018

Racialized youth are disproportionately affected by the criminal justice system in Canada, whether it be through carding, the court system, or incarceration. The first step to making change is sharing, learning and connecting. Come join the conversation. This event will feature a panel of community leaders to share their knowledge on this topic, followed by a series of discussion groups, and the filming of a short storytelling documentary. Whether you want to share your story, learn from others, or connect with community leaders, all are welcome to participate.
