- **Building community capacity**
- **Advocacy**
- **Community power projects and partnerships**

## VALUES

- **Care**, about the environment and about people
- **Community** control and empowerment
- **Equity and fairness** in access to affordable power
- **Collaboration** with suitable parties and partners
- **Inclusiveness**
- **Inspiring** change
- **Solutions-focussed** to drive sustainable change
- **Encouraging**, including encouraging investment in solar
- **Transparent** processes
- **Integrity**

## KEY MESSAGES

- **RePower believes 100 per cent solar power for our community is possible, achievable, sensible and necessary.**
- **RePower is about:**
  - Local action on climate change
  - Being part of the solution
  - Practical solutions
  - Individual and community investment in the solutions
  - Collaborating with key players
- **Alice Springs is the best place in the world for solar power, with:**
  - a massive solar resource
  - an isolated grid
  - existing knowledge and expertise
  - investment readiness
  - 'If it can't work here, it can't work anywhere'
- **100% solar is technically feasible, with:**
  - Batteries and rooftops more widely utilised, and utility scale developments
  - Appropriate product stewardship and investment
  - Political will and community awareness
- **Solar power makes lives better. It is:**
  - Cleaner
  - Cheaper
  - *Our* action on climate change
  - Economic development, generating jobs
