

ArtsMatter

Media Arts Education

animation | film | digital art | photography | video games | web design

ArtsMatter brings educational resources in media arts to public schools across LA County. Using engaging content provided by media partners, ArtsMatter produces instructional materials and real-world experiences that introduce students to the media production industry.

Program includes:

- **Instructional Materials**
Standards-based curricular materials connect media arts concepts to all content areas and grade levels.
- **Professional Development**
Workshops for small and large groups equip teachers with techniques for bringing media arts into their classrooms.
- **Classroom Filmmaker**
Two classroom visits by professional filmmakers are coordinated for each school and technical/artistic support is provided during planning process.
- **Student Engagement Events**
Field trips and other opportunities to engage in hands-on media arts production are made available to students from participating schools.
- **Media Arts Capstone**
\$1,000 is granted to each school for an ambitious project that applies media arts concepts students have learned throughout the year.
