

2016 ASH Year 10 Snapshot

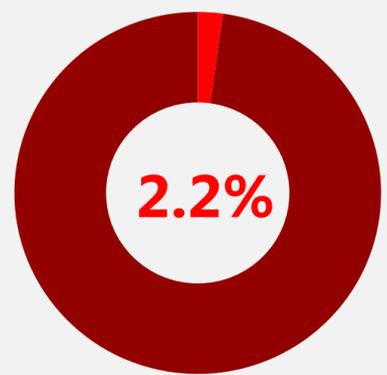

Topline Results

79.4% of Year 10 students in NZ have **never smoked**

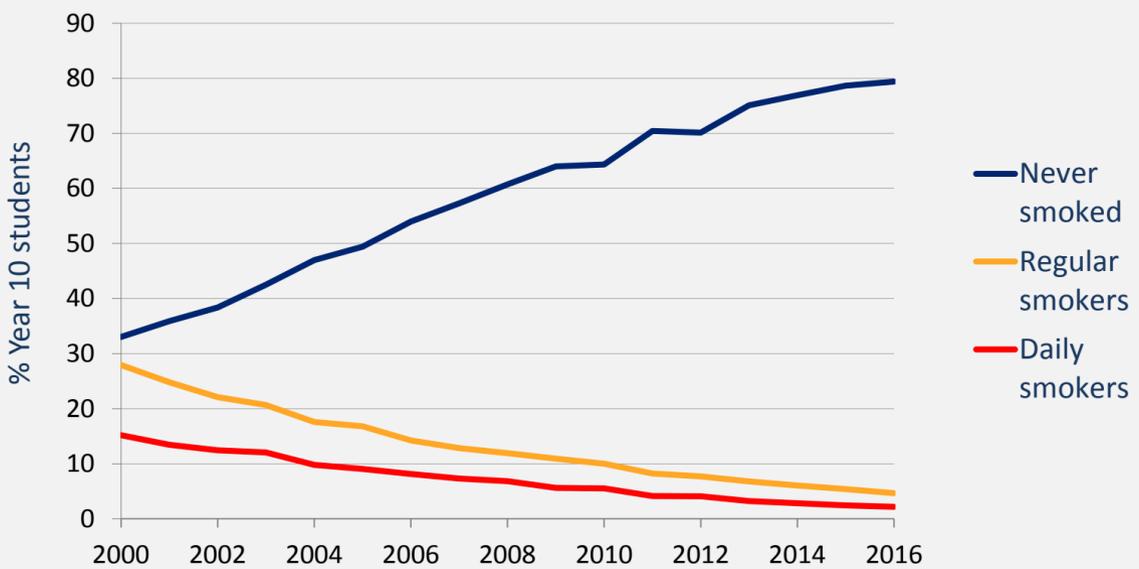

4.7% of Year 10 students in NZ are **regular smokers**

2.2% of Year 10 students in NZ are **daily smokers**

Daily smokers are participants who report smoking at least once a day. **Regular smokers** include daily smokers along with participants who report smoking weekly or monthly.

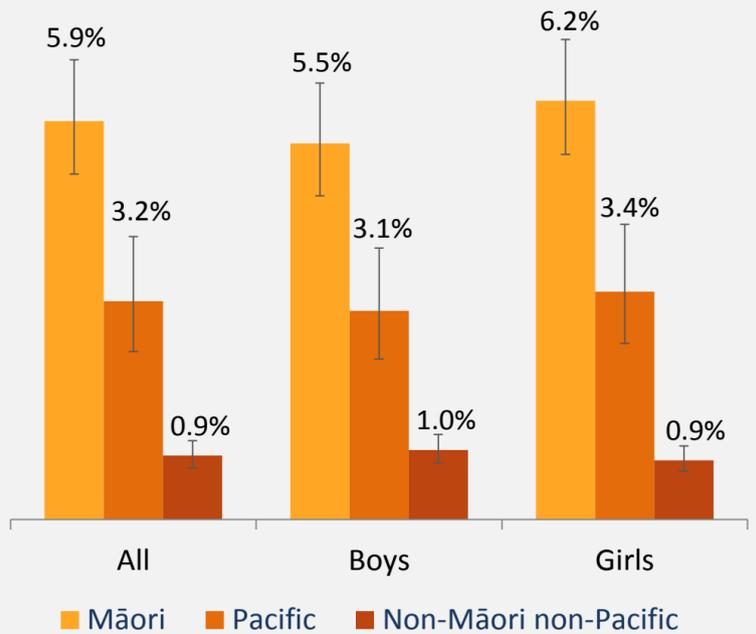

Daily & regular smoking continues to fall; never smoking continues to rise

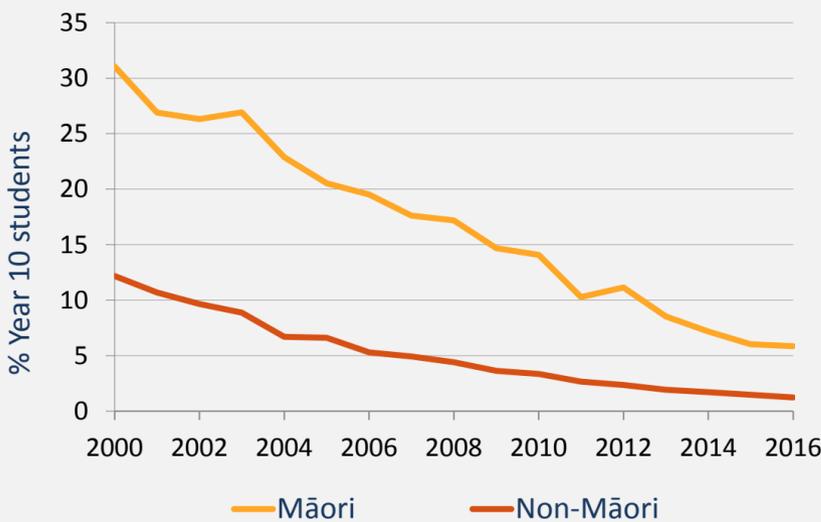

Māori and Pacific smoking remains disproportionately high, especially for girls

Daily smoking rates for Māori and Pacific participants were significantly higher than for non-Māori non-Pacific participants in Snapshot 2016.

Māori girls still have higher daily smoking rates than Māori boys, while the gap between Pacific girls and boys and non-Māori non-Pacific girls and boys has closed compared to previous years.

Māori smoking decrease slows in 2016

Daily smoking rates for Māori have continued to decrease but may have slowed.

Daily smoking rates for Māori show less of a decrease (i.e. much less change from 2014–2016) compared to non-Māori in 2004–2006).

Smoking status for participants in the 2016 ASH Year 10 Snapshot

2016	n	% Never Smoked	% Regular Smokers	% Daily Smokers
All	24,847	79.4	4.7	2.2
- Boys	11,731	78.9	4.5	2.3
- Girls	13,116	79.8	4.8	2.1
All Māori	5,227	59.5	10.8	5.9
- Māori boys	2,461	63.2	9.2	5.5
- Māori girls	2,766	56.2	12.2	6.2
All Pacific	2,500	70.8	6.1	3.2
- Pacific boys	1,275	71.2	5.6	3.1
- Pacific girls	1,225	70.5	6.6	3.4
