

## **#RightTrack Conversations - Sample Invitation to Guests**

Hi .....,

I am holding a community conversation with people who want to learn more about the process people go through when they seek asylum, and I would love you to come along!

This is part of #RightTrack Conversations being held by people across the country who want to increase their community's awareness of how the process currently works. For example, you mightn't be aware that the Government has recently decided to cut off all support for people seeking asylum? Coming along to a conversation is an opportunity to learn more about how decisions like this impact on people.

The conversation is facilitated using audio recordings provided by the Asylum Seeker Resource Centre (ASRC) in Melbourne who work with people who are going through this process. The recordings are of a young man who is seeking asylum and his lawyer and our discussion will be based on his experiences. There will be about 4 – 5 of us and the conversation usually takes about an hour.

At the end we'll complete an anonymous survey about our views of the process which will be fed into a national consultation on this important social issue. This will be shared with community leaders and elected representatives in coming months.

Please join me (and bring a friend who also wants to learn more?) for a thoughtful discussion with great company.

Where: My house

When: Saturday 10<sup>th</sup> March at 7pm

RSVP by 5<sup>th</sup> March.
