

LET'S MAKE IT THE BEST IT CAN BE

We, ASU Members at demand the Federal Government acts to ensure:

IMPROVED NDIS PRICES that recognise

- fair wages with regular pay increases,
- time for training and support from our supervisors,
- time for administration, travel and peer support,
- our penalty rates and leave entitlements,
- stable and predictable working hours that provide a living wage.

MEANINGFUL CAREERS through

- a classification structure that properly values the work we do and provides meaningful careers,
- ongoing professional development for all workers.

QUALITY STANDARDS that recognise

our skills and ensure safe and high-quality supports for NDIS clients in particular for high needs or mental health clients.

SECURE JOBS with

stable and predictable working hours that provide us with a living wage and continuity of supports for NDIS clients.

WE STAND UNITED AND WILL:

- campaign to win these demands,
- lobby our politicians to agree to our demands,
- seek the involvement of our employers in our campaign,
- work with our clients and their carers to make the NDIS the best it can be.
