55 Trinity Ave. SW  
Atlanta, GA 30303

June 4, 2018

Dear Mr. Weyandt & Councilmember Farokhi:

The Inman Park Neighborhood Association (IPNA) strongly supports the DeKalb Avenue Complete Street project because it will enhance the safety and accessibility of a primary Atlanta eastside corridor for people who walk, require ADA access, bike, drive, and take MARTA.

IPNA supports the proposed changes to Dekalb Avenue through the Renew Atlanta Infrastructure Bond Program on the following merits:

- Resurfacing and restriping Dekalb Avenue and removing the reversible lane
- Replacing the reversible lane with a dedicated turn lane
- Installation of fully marked and signalized ADA compliant pedestrian crosswalks
- Completion of a multi-use trail for added bicycle and pedestrian safety

After years of delay and waiting for action on this critical Complete Street project, IPNA wants to ensure that the criteria of a Complete Street, prioritizing safe mobility for all street users, regardless of age or ability, is implemented. We are eager to see this project fully completed in 2020.

Sincerely,

Neil Kinkopf  
President  
Inman Park Neighborhood Association
