    - Stopping Adani's dangerous coal mine in Queensland from destroying our Reef and climate
    - Supporting the Port Augusta community with their campaign to replace their old coal stations with solar thermal
    - Campaigning for 100% renewable energy from the Government and Opposition
- **Seed Indigenous Youth Climate Network -** led by Aboriginal and Torres Strait Islander youth, this growing network is giving Indigenous young people the skills to Protect Country. Check out more at seedmob.org.au
- **Switched on Schools** - each year we educate, inspire and empower tens of thousands of high school students to create change. We do this through presentations, two day summits and then mentor students to lead their own campaigns to repower their school.
