VIC Communications Volunteer: Videographer

**Time Commitment:** 10 hours per week for at least 12 months  
**Responsible to:** AYCC VIC State Leaders  
**Start:** ASAP  
**Salary:** This is a volunteer role. Reimbursement is available for associated expenses.  
**Location:** Melbourne

**ABOUT THE AYCC**  
The Australian Youth Climate Coalition (AYCC) is Australia's largest youth-led organisation, and the peak body for youth acting on climate change. We're building a generation-wide movement to solve the climate crisis before it's too late, and need passionate, enthusiastic volunteers to make it happen. We're running campaigns to stop Adani's plans to build Australia's biggest coal mine near the Great Barrier Reef and supercharge the upgrade to renewable energy.

**ABOUT THE ROLE**  
We are looking for a videographer to capture some of AYCC VIC’s peak moments and create engaging online content. You will work with a team of volunteers and touch base with national staff to create and publish a range of content for social media, helping to shift the narrative about climate change, renewables and fossil fuels in Australia.

As a film and video editing whiz, you will attend and film AYCC events and turn these into powerful videos for our Facebook, Instagram and Youtube pages. You will occasionally be called on to contribute to whole organisation projects, such as documentaries.

**DUTIES AND RESPONSIBILITIES**
- Be part of creative brainstorms for campaigns and programs
- Work with the communications team in your state or local area to develop a cohesive visual style for AYCC online and printed content
- Attend and film AYCC peak moments and events
- Film and edit videos and (if possible) create animations that simply explain scientific concepts, inspire action or build morale
- You may on occasion be asked to photograph events
- Teach other volunteers basic film techniques

**WHAT YOU’LL LEARN**
- How to communicate and campaign for climate change effectively
- How to create and evaluate communications strategies
- How to tell the story of the youth climate movement across different channels and grow our supporter base
- How to work with a team of young people to produce on-message content

**KEY SKILLS, CHARACTERISTICS AND EXPERIENCE**
- Experience in video filming and editing, including experience video editing software such as Premier Pro or Final Cut Pro
- An eye for strong visuals and an ear for the right music and words to suit
- Passionate about environmental issues, especially solving the climate crisis in a fair and just way
- A commitment to ethical communication principles, including respect for consent
- Strong people skills, with demonstrable empathy and the capacity to put people at ease
- Extra points for animation skills, such as experience using Adobe After Effects
Don’t have all skills/experience listed above? Still apply! We need a passionate, dedicated, quick-learning young person under 30 to fill this role. There will be plenty of on-the-job learning opportunities. We strongly encourage young Aboriginal and Torres Strait Islander, LGBTIQA, and people of colour to apply.

**HOW TO APPLY**
Send your CV, a quick statement about why you’d be awesome for this role, and your best original content (meme, video, graphic, blog post - you name it!) to matt.curry@aycc.org.au by Aug 25 at 5pm.

A note on volunteer creative work: we employ creative staff and regularly pay for outsourced creative work and value all forms of labour. This role is for people who wish to voluntarily contribute their creative skills to fighting climate change and/or gain experience in their communications skills.
