

## The Australian Youth Climate Coalition

### We're looking for 2-3 NSW State Leaders!

**TYPE OF POSITION:** Volunteer

**LOCATION:** Sydney, NSW

**REPORTS TO:** Isabella Gray (NSW Organiser)

**TIME COMMITMENT:** 2 days per week (12 - 16hrs) for 12 months

We're looking for 2-3 outstanding individuals aged 18-30 to join the team and lead the AYCC New South Wales branch for 2019-2020, alongside our current State Leaders. This is an incredible opportunity to build AYCC New South Wales to powerfully implement strategic grassroots campaigns at a crucial time for the climate. It is an opportunity to use your existing leadership, communication and strong interpersonal skills to make a significant and lasting contribution to the climate movement. In this position you will build skills in management, communications, community organising, strategy, campaigning and much more. This is your chance to be part of a dynamic and exciting leadership team that is building a generation-wide movement to solve the climate crisis.

#### About the AYCC

The Australian Youth Climate Coalition has grown from a handful of people in 2006 to become one of Australia's most effective and innovative social change organisations with over 150,000 members and hundreds of volunteers around the country. AYCC's mission is to build a generation wide movement to solve the climate crisis. AYCC focusses on both political impact and cultural change. We have successfully campaigned to get a price on carbon, held climate justice summits and leadership trainings with thousands of participants, and convinced all four of Australia's big four banks to pull out of their involvement with the proposed Adani Carmichael coal mine. We do this work alongside the Seed Indigenous Youth Climate Network.

#### About the AYCC New South Wales

In NSW, we currently have between 50-80 regular committed volunteers, and over one hundred others who are involved in a semi regular or occasional basis. We have grassroots groups throughout Sydney and Wollongong and are supporting the growth of others in regional NSW in areas such as the Blue Mountains, Gosford and Newcastle. We have proven ourselves to be a strong part of the climate movement in NSW.

In 2018 and the first half of 2019 we've focused largely on stopping Adani's proposed Carmichael coal mine in the Galilee Basin, supported Seed Indigenous Youth Climate Network in their fight to ban fracking in the NT, run a successful #ClimateElection campaign and supported the growth of the School Strike 4 Climate movement. We've used creative and engaging tactics, which place pressure on key influential decision-makers to aim higher on climate. We have also been working with young people to support their visions for a future beyond coal, and mentored high school students to run campaigns in their schools to transition to renewable energy.

We will be continuing all of this important work into the second half 2019, in addition to launching our new peer-to-peer fundraiser. Excitingly we are also in the process of transitioning into a new grassroots hub model which will enable us to scale our grassroots. The hubs will focus around: communications, schools, volunteer support and movement building. This model will allow us to better support volunteer growth and engagement, enable more leadership opportunities, provide volunteers with more regular and tailored training and development, and boost our capacity to win campaigns in the fight for climate justice. The new state leaders will play a critical role in facilitating and supporting this transition, alongside their co State Leaders and with the support of the NSW Organiser.
