

Health Technology

Co-Chairs – Gavin Fox-Smith, Chandra Selvadurai

Initiatives

1. Interoperability across the trans-Tasman

2. Coordination and Collaboration

3. Health Technology Centre of Excellence

4. Map the Trans-Tasman Health Tech Innovation Eco-System

Comments

Support interoperability infrastructure development that will enable patients to have access to their health information online, enhancing trans-Tasman community wellness. For example medications management.

Increase the level of interaction and awareness across the Tasman in digital health to enable collaboration opportunities.

Create a platform where emerging health technologies can be developed, shared and accelerated to advance patient care.

Create a platform to drive international interest in health technologies and data insights into innovation occurring in the public and private sector for medical devices and digital health technologies.

<1 year

Government to Government

- 1 Support the development of a trans-Tasman data and privacy sharing treaty
INTEROPERABILITY
- 2 Open discussions between Australia and New Zealand Digital Agencies to ensure cohesion
COORDINATION IN DIGITAL HEALTH

Business to Government

- 1 Design a roadmap of ways to enable trans-Tasman health sector interoperability through digital technology
INTEROPERABILITY
- 2 Hold a Summit with the leaders of key stakeholder agencies.
COORDINATION IN DIGITAL HEALTH

Business to Business

- 1 Establish a relationship with Nordic countries to understand and share their learnings in the health interoperability space.
INTEROPERABILITY
- 3 Support the proposed Australia New Zealand BioBridge.
CENTRE OF EXCELLENCE
- 4 Identify scope of work for mapping the trans-Tasman health technology eco-system
ECO-SYSTEM

1-3 years

- 1 Negotiate a data and privacy sharing treaty across the Tasman.
INTEROPERABILITY
- 2 Open discussions between Australia and New Zealand Digital Agencies to share learnings
COORDINATION IN DIGITAL HEALTH

- 1 Harmonise medicine terminology across the Tasman
INTEROPERABILITY
- 2 Increase the level of trans-Tasman coordination in digital health by supporting Ministerial engagement across the Tasman.
COORDINATION IN DIGITAL HEALTH

- 3 Link medtech innovation ecosystems in Australia and New Zealand, allowing the two countries to leverage each other's expertise, resources and networks.
CENTRE OF EXCELLENCE

3-5 years

- 1 Implement a data and privacy sharing treaty across the Tasman.
INTEROPERABILITY
- 1 Introduce person centric health data management
INTEROPERABILITY

- 3 Scope collaboration on research trials and potential business opportunities
CENTRE OF EXCELLENCE
- 4 Map trans-Tasman Health Technology Innovation Eco-System
ECO-SYSTEM
- 1 Develop a Health Passport for medication to enhance trans-Tasman community wellness
INTEROPERABILITY
- 4 Present outcomes of mapping exercise and leverage opportunities across the Tasman
ECO-SYSTEM

- 3 Establish a Trans-Tasman Health Technology Centre of Excellence
CENTRE OF EXCELLENCE
