## Administration Notes

AT DELIVERY OF THIS INSPECTION REPORT, THE EMPLOYER IDENTIFIED SEVERAL POINTS OF CLARIFICATION :

- THE WEEKLY FRISKS MENTIONED IN THIS REPORT ARE ALREADY STANDARD PRACTICE AT THIS FACILITY. THE CHECKLIST IS BEING DONE IN ORDER TO STANDARDIZE THIS PRACTICE.
- URINE SAMPLING IS ALREADY A COMPONENT OF ATTAINING LEAVE AT THIS FACILITY. THE PRACTICE OF RANDOM SAMPLING IS A PRACTICE CURRENTLY BEING PURSUED BY THE BRANCH.
- THERE ALREADY IS A "DRUG DOG" WHICH PERIODICALLY ATTENDS AT VPSC. THE DOG SUGGESTED BY LINE STAFF AND REFERRED BY THE EMPLOYER IS A SECOND. OR MORE FREQUENT, DOG ATTENDANCE.
- -IN THE LAST PARAGRAPH OF THE INSPECTION TEXT THIS OFFICER REFERENCES A CONCERN FROM LINE STAFF ABOUT ISSUES NOT BEING ADDRESSED BY SENIOR

# **INSPECTION REPORT**

PREVENTION DIVISION

An employer who fails to comply with Occupational Health and Safety Regulations or Board orders or directions is subject to sanctions as prescribed in the Workers Compensation Act,

Occupational Health and Safety Regulations require that one copy of this report remain posted in a conspicuous place at or near the operation inspected for at least seven days, or until compliance has been achieved, whichever is the longer period.

A request for a review of the orders in this report may be submitted to the Prevention Division within 60 calendar days of the date of this report. The time cannot be extended.

Report Date	Number	Employee Number	<u>Employer</u>
1998-11-03	1998007430108		PROVINCIAL GOVERNMENT

MANAGEMENT OR THE PROVINCIAL OH&S COMMITTEE BECAUSE OF A LACK OF TIME. IT IS NOT CLEAR WHETHER THE LINE STAFF WERE REFERENCING 'SENIOR MANAGEMENT' AT THE FACILITY OR AT A HIGHER LEVEL. THE EMPLOYER IS NOT AWARE OF ANY HEALTH/SAFETY ISSUES WHICH HAVE NOT BEEN ADDRESSED BY SITE MANAGEMENT BECAUSE OF A LACK OF TIME.

- RE ORDER # 3 : THE EMPLOYER EXPRESSED CONCERN THAT THIS ORDER MAY IMPLY THAT A RISK ASSESSMENT FOR VIOLENCE AT THIS FACILITY HAS NOT BEEN DONE AT ALL. ACTUALLY, THE OFFICER IS IDENTIFYING THAT THE EMPLOYER NEEDS TO INCLUDE THE RISK FROM DRUG-RELATED VIOLENCE IN A RISK ASSESSMENT.

### Inspection Text

RE ORDERS # 1 & 2 : AN ACCIDENT INVESTIGATION WAS REVIEWED OF AN INCDENT WHICH OCCURRED IN SEPTEMBER 98 WHEREIN A CORRECTIONS OFFICER WAS IN AN ALTERCATION WITH AN INMATE.

ALTHOUGH THERE IS A POLICY ABOUT REFERRAL OF WORKERS TO MEDICAL ATTENTION AFTER AN INCIDENT OF VIOLENCE (P&PM B2-8), THE SUPERVISORY AND MANAGEMENT REPRESENTATIVES, AND THE NURSING STAFF AT VPSC ARE GENERALLY NOT VERY AWARE HOW THE REQUIREMENT APPLIES TO TRAUMATIC INCIDENT COUNSELLING. THERE WAS SOME DISCUSSION AROUND THIS AND THE EMPLOYER ACKNOWLEDGED THAT THIS SHOULD BE MADE CLEARER TO STAFF. ALTHOUGH A VIOLATION OF THE REGULATION WAS NOT SPECIFICALLY IDENTIFIED IN THIS REGARD BY THIS OFFICER, IT IS EXPECTED THAT THE EMPLOYER WILL PROACTIVELY ADDRESS THIS ISSUE WITH FUTURE COMMUNICATIONS TO STAFF.

CRITICAL INCIDENT/TRAUMA COUNSELLING IS DESIRABLE IN SOME CIRCUMSTANCES TO PREVENT WORKERS INVOLVED IN INCIDENTS OF VIOLENCE FROM SUFFERING ONGOING ADVERSE PSYCHOLOGICAL EFFECTS FOR WHICH DISABILITY COMPENSATION MIGHT HAVE TO BE PAID. COUNSELLING MAY BE OBTAINED THROUGH THE WORKER'S PHYSICIAN. ALTERNATIVELY, SOME EMPLOYERS MAY HAVE ONGOING PROGRAMS WHICH CAN PROVIDE APPROPRIATE COUNSELLING. THE EMPLOYER MUST ADVISE THE WORKER TO CONSULT WITH A PHYSICIAN WHERE THIS IS REQUIRED BY REGULATION 4.31(3) BUT SHOULD ALSO ADVISE THE WORKER OF THE AVAILABILITY OF OTHER PROGRAMS WHICH CAN ASSIST. THE EMPLOYER'S WORKPLACE VIOLENCE PREVENTION PROGRAM SHOULD CONTAIN POLICIES AND PROCEDURES ON WHEN ADVICE TO OBTAIN COUNSELLING SHOULD BE GIVEN AND WHERE APPROPRIATE COUNSELLING MAY BE OBTAINED E.G. THROUGH A FACILITY OF THE EMPLOYER OR ANOTHER LOCAL HEALTH FACILITY. THERE IS SOME CONVERN ABOUT THE EXTENT OF THE COUNSELLING TO WORKERS AFTER A TRAUMATIC INCIDENT; IT IS NOT APPROPRIATE OR ACCEPTABLE FOR COUNSELLING TO BE RESTRICTED TO ONLY CERTAIN AREAS OF DISCUSSION. AN EFFECTIVE COUNSELLING SESSION MUST BE OPEN TO A WORKER'S DISCUSSION OF THE EVENTS, INCLUDING THE OPERATIONAL CHARACTERISTICS OF THE EVENT.

Attended meeting with the following staff:
Ardith Watson
George Topic
Rod Santos
Malcolm Grace
Garrick Marshall
John Mikulec
Kelly Keenan
Peter Coulson
Terri Havill
Tim Stiles

Meeting was requested by union staff in order to discuss some issues of ongoing concern at VPSC, especially with respect to the use of drugs in

## INSPECTION REPORT

PREVENTION DIVISION

An employer who fails to comply with Occupational Health and Safety Regulations or Board orders or directions is subject to sanctions as prescribed in the Workers Compensation Act,

Occupational Health and Safety Regulations require that one copy of this report remain posted in a conspicuous place at or near the organion inspected for at least seven days, or until compliance has been achieved, whichever is the longer period.

quest for a review of the orders in this report may be submitted to the Prevention Division within 60 calendar days of the date of this report. The time cannot be extended.

Report Date	Number	Employee Number	Employer
1998-11-03	1998007430108		PROVINCIAL GOVERNMENT
the fact	llity and with	recoect to	incidents of violence at the facility

the facility, and with respect to incidents of violence at the facility.

The union staff presented a number of recommendations/suggestions and

- issues of concern, most of which are summarized here:
   possible re-design of 'visits' tables (e.g. use of longtables)
   periodic use of sniffer dogs as a deterrent to bringing drugs into the facility
- periodic use of ion scanner (acknowledgement that this tool has some limitations)

- better training for staff on drug detection (e.g. use of a kit)
  Increased searches of visitors, including strip searches as necessary
  weekly frisks of inmates (checklist being developed?)
  incidents of violence in the attached jail facility, where a number of
  PSC are currently assigned (sometimes 3 4 incidents per night)
  need for a clearer "use of force" policy
  design issues for the new part of the facility VPSC are
- floor matting in some areas to prevent injury to Correction Officers and inmates
  - expansion of the isolation facility for difficult inmates
- room with soft surfaces for self-destructive inmates

- room with soft surfaces for self-destructive inmates
   purchase of Kevlar gloves to assist with frisking
   cleaning solution required for gloves
   nurses shouldn't be searching female inmates (employer agrees)
   concern about inmates "high" on drugs being transorted to the Health
  Unit (general agreement that inmates under the influence of drugs
  shouldn't be transported around the facility
   better policy and training around use of the re-straint board (some
  staff are not aware of hoe to use this device even though there are
  policies concerning it's use)
   use of force with female inmates (male COs are sometimes uncomfortable
  with using any force or restraint with female inmates)

- with using any force or restraint with female inmates)
   a concern that during the investigation of an altercation-type incident,
  the employer seems to take on an adversarial role during an interview of the involved worker (the WCB officer suggested that the worker representative participating in the accident investigation be sensitive to this during the investigation process). A employer representative disagreed with this supposition.
- the concern that during critical incident response, the in-house trauma counsellor is unwilling to discuss operational aspects of the incident (the WCB officer suggested that the workers should consider alternative counselling availability if the needs of the workers are not being met. The Ministry has an EFAP program, and the worker's own family doctor can probably also supply a counselling resource option).

The employer spoke to a number of issues as well, both in response to a 1997 report on Drug Interdiction in the Branch, and also about procedures or policies alraedy implemented at VPSC;

- A Corrections Branch policy on drugs and violence is in place and has been distributed to all COs been distributed
- is aimed at
- drug and
- The various Branch drug policies still need to be consolidated and this is aimed at completion by February 1999

   the facility Director of Operations is assigned to be the coordinator of drug and violence interdiction (e.g. ROCOR link to data system)

   the call for training of staff with respect to drug identification

   the call for a random sampling policy the Branch has no authority to require a sample. Maybe this can be tied to a condition of leave. require a

- a consistent search policy
   presence of a drug dog the budget is not available at this time
   use of an ion scanner to be evaluated by December 1998
   use of "longtables" needs more study. There is some evidence to

indicate that there control measure.

may be problems with the implementation of this

- refresher training for staff on existing poicies, procedures and equipment
- training of contractors on site security arrangements
- criminal investigations to be more quickly turned over to, and conducted by, police
- background checks on staff could be improved alcohol and drug programs for staff need to continue

- alcohol and drug programs for staff need to continue
   improved perimeter security to prevent drug transfers from the street
   better security of laundry distribution (no longer involves inmates)
   better use of a Security Advisory Committee
   a weekly Q & A period with staff in order to provide another opportunity
  for line staff to directly ask management for details on specific issues
  or to discuss facility practices, policies or procedures
   a daily 15 minute meeting with supervisory staff to discuss "breaking" issues.

The presentation of these issues generated much further discussion. For example, nursing staff were unaware of the requirement to refer workers involved in an incident of violence to medical attention from a physician of the worker's choice. There was general agreement from all present that there are some very real budget constraints. The line staff present at the meeting expressed the hope that the WCB regulatory requirements might be useful in "freeing up" some monies. The officer's response is that order #'s 3 and 4 require a determination of the control mechanisms necessary to meet the requirement of the regulation. Although a variety of control mechanisms may be applied to control any given hazard, and there is no regulatory requirement to select the most expensive, or any particular control mechanism, THE HAZARD MUST BE EFFECTIVELY CONTROLLED, EVEN IF THIS MEANS GOING OVER BUDGET. MEANS GOING OVER BUDGET.

Line staff were also concerned that many of the issues that the OH&S committee refers to senior management or to the Provincial OH&S committee do not get addressed because of a lack of time. The officer responded that Section 3.6(1) of the regulation requires the local OH&S committee to make recommendations as necessary, and section 3.20 requires the employer to take any necessary corrective action without delay. Although an employer's response to a report of an unsafe condition may not always be as quick as workers would like, there must be some acceptable reasonableness to the time it takes for a response, and this will guide this Officer's approach on any specific issues identified by the worker's as examples of delay.
