

Biography

Mario Vucinovic

I am currently an electrical safety officer with Technical Safety BC since 2005. I have also acted as Regional Business Leader and participated in other corporate projects within the organization. I earned university degrees in Fine Arts and Education. I also hold a seat as municipal councillor for the District of Peachland.

I am a proud husband and father of two including a loving home for three dogs and a cat. It sounds busy but the animals truly enrich our lives. My wife is a hospital nurse, my son plays competitive baseball, and goaltending is my daughters passion.

When asked to accept the nomination form for our bargaining unit, I thought about our members and our current collective agreement. I am an advocate of fairness and feel I can help bring a methodical approach to the negotiation table.
