

## **Brenda Dunn**

I have worked for the TNRD library system since 2007 as a part-time and casual employee. I have been a shop steward since 2008. I am the 1st vice-chairperson of our local executive. Currently, I am a member-at-large for the Kamloops & District Labour Council where I attend meetings on behalf of local 705. I have attended two BC Federation of Labour conferences and four educational opportunities provided by the BCGEU.

In my previous work experience, I have managed large projects requiring attention to detail, technical writing, and the co-ordination of many people. Recently, I have served as a bargaining committee member for the current collective agreement.

I have chosen to run for a position on the bargaining committee because I think I would make a difference for all members due to my breadth of work and bargaining experience.

Thank you.
