

## **MIKE KIM**

Mike Kim has earned a master's degree in political science from Simon Fraser University. Concurrent with these studies, he worked as both a research assistant and a teaching assistant, demonstrating a strong work ethic and a keen ability to balance a variety of priorities. This endeavour also left Mike a great deal of experience in relaying technical subjects to a diverse audience.

Since graduation in 2016, Mike has worked in Applicant Services at BC Housing. The first fifteen months of this were spent as an Applications Assistant while the past year has been spent as a Program Specialist.

As a Program Specialist, Mike serves as the primary subject matter expert in supporting the delivery of a range of programs that are managed by Applicant Services. This work relies on Mike's skills in customer service and collaboration, his calm demeanor, and his keen intellect as he supports both external and internal clients. These traits would be an asset in the bargaining process, as will his commitment to value the input of everybody that he would be tasked to represent.

Overall, Mike is an intelligent and professional individual who is driven to succeed. This drive has led to success and results in a variety of contexts, from BC Housing, to academia, to the many places in between. This is undoubtedly one of the greatest assets that Mike will contribute to the bargaining team.

Thank you very much for your consideration, and those responsible for their nomination. It is truly appreciated.
