RE: Distribution of Materials

Dear Mr. Bushfield,

Please find attached a file created from our records regarding distribution of materials since the Policy 518 change in 2013.

There was a change in personnel after the Policy change, and therefore, the records we have on file are those contained in the attached report. Furthermore, that while we acknowledge there was some distribution of Gideon Bible parent request pamphlets and the Gideon Bibles to grade five students until last fall, this practice has not occurred this year 2014/2015 and will not occur in the future.

We hope this satisfies your request for information.

Kind regards,

Evelyn Novak
Superintendent of Schools
