RMES #5 is scheduled for demolition in January. The building will be completely demolished, as well as some of the surrounding hills. Scheduled to open in August 2018. The boundary study will take place February–April. Recommendations will be given in May. The school population affected will be College Gardens, Beall, and Twinbrook. College Gardens may be affected if Chinese immersion is moved to a different school. Beall is advocating for an addition and revitalization, due to increasing demographics.
