

Office of the City Clerk

I hereby certify that the following is a true and correct copy of a resolution, being New Motion 2 unanimously approved by Kingston City Council at its regular meeting held on December 15, 2015:

Whereas the 2011 National Household Survey confirmed that 14.9% of the population live in low income circumstances, a percentage exceeded in the City of Kingston where the percentage of the population living in poverty has been documented at 15.4%; and

Whereas income insecurity and inequality continue to increase as a result of precarious employment; and

Whereas existing income security programs have not proved sufficient to ensure adequate, secure income for all; and

Whereas insufficient income, income insecurity and inequality have well-established, strong relationships to a range of adverse public health outcomes, and are root causes of many social ills such as illiteracy and short-fall of educational attainment, chronic stress, alienation, and criminal activity, all of which undermine the social fabric; and

Whereas a basic income guarantee would reduce income insufficiency, insecurity, and inequality and ensure everyone an income sufficient to meet basic needs and live in dignity regardless of work status; and

Whereas a basic income guarantee would provide an income floor for those doing socially essential but unpaid work, supporting the choices of those who engage in it; and

Whereas a basic income guarantee would provide additional direct personal income which would be spent locally, thereby revitalizing local economies; and

Whereas a basic income guarantee would enable individuals to pursue educational, occupational, social and wellness opportunities relevant to them and their families; and

Whereas a basic income guarantee would support entrepreneurship and job transition for those trying to establish a new productive role for themselves in response to a persistently changing economy; and

Whereas a basic income guarantee would resemble income guarantees already provided in Canada for seniors guarantees which have contributed to health and quality of life improvements in this age group; and

Whereas basic income has been studied in Canada for approximately forty years and has demonstrated improved physical and mental health and educational outcomes; and

Whereas a basic income guarantee program would involve the redistribution of the administrative functions of existing income support programs to the nation as

a whole and to senior government partners in the same manner as Medicare and the existing seniors and children's programs;
