

INSTRUCTIONS FOR PRINTING OUT THESE FLIERS:

Before you begin, make a test copy following the instructions below. Be sure you load the paper for the actual run properly, assuring that the top of the fliers will match on both sides, based on your successful test run.

Test copy:

1. Print the first side by selecting “Print page 2” (1 is the Instructions page), and enter the number of copies as 1.
2. Take the completed first-side printout, flip the paper over, and reload it in your printer paper tray. Note which way you load the page.
3. Select “Print page 3”, and enter the number of copies as 1.
4. When printing is complete, check to see if the text on each side of the paper matches up. When cut in half, each half will be a front-and-back flier.

When you are sure that each side will match up properly, make your actual copies:

1. Print the first side by selecting “Print page 2” (1 is the instructions page), and enter the number of copies you wish to make.
2. Once you have completed printing the first side, flip over the pages you just printed and reload them in your printer paper tray in the same direction you loaded the successful test printout.
3. Select “Print page 3” to print the second side, and enter the same number of copies you made for the first side.
4. When printing is complete, cut the pages in two down the middle, creating two fliers from each page.

Don't do *Koch*.

These products are made by Koch Industries, major polluters of the environment. The Koch brothers finance campaigns to kill Social Security and promote climate change denial.

**Talk
back to
Koch
Power!**

See other side for reasons not to buy from Koch Industries.

Reasons **NOT** to buy from Koch Industries!

■ **The Koch brothers have spent more money on climate denial** than Exxon-Mobil. One of the top 10 polluters in the country, Koch Industries continues pumping pollutants into the air and water with impunity.

■ **The Koch brothers financed the anti-worker campaigns** in Wisconsin and Michigan along with support for anti-union politicians who oppose collective bargaining rights. Koch Industries is the largest privately held corporation in the US, and is union-free.

■ **The Koch brothers have spent \$50 million lobbying for the Keystone XL Pipeline**, an ecological nightmare for the United States. It is estimated it will earn them \$100 billion.

■ **The Kochs fund Americans for Prosperity**, which spends millions of dollars in opposition to health care reform, supports the privatization of Social Security, and is against protection for workers and the environment.

■ **The Koch brothers have financed tough sentencing laws** along with the privatization of prisons to create a huge captive workforce to be exploited as cheap labor.

■ **The Kochs fund the American Legislative Exchange Council (ALEC)** which writes bills for state legislators to introduce and pass that directly benefit the Kochs and their fellow billionaires. ALEC boasts that it has 1,000 bills introduced every year with 1/5 becoming law.

Let's put politics back in the hands of the people and out of the hands of the plutocrats. You can make a difference.

Spread the word!
