Hometown girl makes good. Yep, Fog City Midge grew up right here in Blackhawk but her message is getting out around the world, thanks to her talent on social media. Importantly, it is being delivered to the generation who will replace the Baby Boomers as the largest voting demographic in our nation, Generation Z. Want to know how to communicate your values to your kids and grandkids? We present Fog City Midge.

“Nothing great in the world has been accomplished without passion” - Donald J. Trump. That is what Fog City Midge has as her Facebook profile and it fits perfectly with what she does. Check out this commentary she wrote to accompany a series of video clips on her Facebook page of Democrat politicians, such as, Obama, Chuck Schumer, and Hilary Clinton, opposing illegal immigration: “The Democrats are spineless hypocrites. They all wanted true Border Security until Trump. Their fake outrage on every issue is beyond a joke now and the American people know it. They are not a party anymore, they are simply opposition. They will oppose Trump above all else and will lie and change policy to do it. This is a Democrat shutdown. America is waiting.”
