The United States was founded as an unprecedented experiment in liberty. For the first time in history, a people came together and formed a new government based not upon land, or title, or wealth, but upon ideas. Ideas about the worth and dignity of the individual, limited government, and the rule of law. These ideas were, and are, nothing short of revolutionary.

But as we know from history, the American Republic has not survived to the present day completely unscathed. While our tripartite national system remains largely intact, progressives have spent the last 100 years working to undermine the ideals for which we stand. Nowhere has this cultural and constitutional coup d'état been felt more acutely than California. Every day it seems that more and more of our most precious liberties are being stripped away.

The question inevitably rises: What can we do about it? Constitutional lawyer with the Pacific Legal Foundation, America's oldest and most effective conservative public interest law firm, Timothy R. Snowball, will deliver his take on where we have been, where we are, and where we should strive to be in the future fight to restore the rule of law.

Our first monthly Caring for America project features the local chapter of the **Blue Star Moms** who will explain what they do to support our troops (care packages, veterans outreach, Operation Postcard and Gold Star Parents Support) and how we can help by donating care package items (see bluestarmoms.com/donations) and checks, made payable to "Blue Star Moms" (tax-deductible) at this meeting!

Reservations/cancellations* and payment via www.blackhawkrepublicanwomen.org by the noon Tuesday, Oct. 8th deadline.
