

SACRED Birth During COVID19

Describing Black Birthing Experiences in Hospitals During COVID 19

The SACRED Birth Study explores how Black mothers & birthing people experience racism in hospital settings during labor, birth, and postpartum, prior to going home.

What will participants be asked to do?

Complete an online or paper survey. The survey takes about 1 hour. At the end of the survey, you will be asked to allow the researcher to access your hospital medical records.

Who can join?

Black or African American persons, aged 18 years or older, who gave birth to a live newborn in a hospital in California or Memphis, TN in 2020.

Earn a \$100 gift card for your participation.
