

The Deni Greene Award 2016

For a professional who has shown outstanding courage in their work for sustainability

The Deni Greene Award - auspiced by the Bob Brown Foundation - has been established to recognise the many contributions that Deni Greene made to sustainability during her time in Australia through an annual award named in her honour.

The Award has been established through the initiative and financial support of a group of Deni Greene's friends and colleagues.

The Deni Greene Award is for an Australian who has made a significant professional contribution in one or more of the following fields in the past five years - areas in which Deni Greene was particularly active:

- Sustainability
- Ethical investment
- Energy
- Environmental and social responsibility (including standards)
- Environmental communication.

The contribution made is expected to be:

- Courageous, reflecting actions or positions taken without fear or favour and involving passionate advocacy within their professional field of work, and
- Well researched, strategic and effective, and
- Ideally cross-disciplinary.

These contributions may relate to paid or unpaid work in a person's professional area of work, and the contribution may have been made in Australia or overseas. The Award is, ideally, for a person still active in their field and who is likely to continue to make a significant contribution, especially those who have not yet received publicly acknowledgement for their contributions through another award or honour.

Nominations for the Award must be made on a confidential basis and the nominee should not be advised of the nomination. Self-nomination is not acceptable.

Nominations received will be reviewed by an Award Committee and a recommendation made to the Board of the Bob Brown Foundation. The 2016 Award will be announced in September 2016.

Prior to the announcement of the Award, the Award recipient will be advised of the Award. Nominators will also be advised of the results of their nomination.

You can find out more about the Deni Greene Award and past winners on the Bob Brown Foundation website (http://www.bobbrown.org.au/the_deni_greenes_award).

The Deni Greene Award 2016

For a professional who has shown outstanding courage in their work for sustainability

Detailed evidence of the nominee's contribution

In describing the nominee and their contributions, please be concise and attach supporting information at the end.

1. Description of the nominee's contribution/s

What field or fields have they contributed to?

This could include fields that Deni Greene specialised in (as above) or other areas of 'sustainability'.

How would you describe the qualities of the nominee's contributions?

Deni had great intellect, energy and persistence, incisive analysis, courage to stand up to vested interests, so-called powerful people, warmth, wit and creativity; all of this made her a powerful force.

How has their contribution/s required them to be particularly courageous or act without fear or favour? In what ways has their contribution/s been particularly creative, innovative, thorough, strategic and/or effective?

2: Impact of the nominee's contribution/s

What difference has their contribution made, to what, to whom and when?

What differences do you expect their contribution will make over time and why?

3: Has their contribution/s created new understandings across disciplines or fields? If yes, then describe what disciplines, for whom, impact.

4: Has their contribution/s been recognised in awards, publications etc? By whom and when?

5: Other

Please attach any additional evidence of their contribution/s, and list the attachments below.
