

Above: Evidence of new roading, taken 2/2/2017.

Below: Same Road on 8/2/2017, showing continuation of roadworks (gravel laid).

Left: Blackwoods in SR107E.

Below: Blackwoods in SR107E.

*Note the contrast between the tree canopy and sky. This is what makes Blackwood forest the critical habitat for White Goshawk. The White Goshawk uses its vivid white colour to camouflage against the contrasted sky. It hunts by ambushing smaller birds from above.*

Above: Burrowing crayfish 'chimneys' in SR107E.

Below: Felled trees from roadworks in SR107E.
