

West Australia Minister for the Environment

The Hon Albert Jacob, 12th Floor, Dumas House
2 Havelock Street, West Perth WA 6005

Dear Minister Jacob,

Plastic does not go away. We must act now to stop plastic getting into our waterways. Queensland is preparing for a plastic bag ban. What is WA waiting for? Here is a checklist of four key actions needed to reduce plastic pollution entering Australia's marine environment - widely supported by the community:

- A world-class '**Cash For Containers**' system *coming in 2018*
- A ban on single-use **plastic bags** *when?*
- A ban on products containing **microbeads**
- Stop industrial plastic pollution *when?*

Thank you for announcing Container Deposits are coming to Western Australia and supporting the microbead ban. **When** will your government take action on the next two steps?
