RESOLUTION #2018-141-22

RESOLUTION SUPPORTING THE ENVIRONMENTAL COMMISSION'S RESOLUTION  
TO CREATE AN ANTI-IDLING POLICY

**WHEREAS**, emissions from gasoline and diesel-powered vehicles contribute significantly to air pollution, including greenhouse gases, ozone formation, fine particulates; and

**WHEREAS**, numerous scientific studies have found links between exposure to fine particles and health effects including premature death, and increased incidents of asthma, allergies, and other breathing disorders; and

**WHEREAS**, the United States Environmental Protection Agency has classified diesel exhaust as likely to be carcinogenic to humans; and

**WHEREAS**, vehicle idling occurs in locations (e.g. school grounds, parking lots, distribution centers, strip malls, construction sites, businesses, etc.) where residents can be exposed to concentrated sources of air pollutant emissions; and

**WHEREAS**, for every gallon of gasoline used, the average car produces about 20 pounds of carbon dioxide (CO<sub>2</sub>), the largest contributor to greenhouse climate change, with one-third of greenhouse gas emissions coming from the transportation sector; and

**WHEREAS**, petroleum-based gasoline and diesel fuel are nonrenewable fuels and should be used wisely and not wasted; and

**WHEREAS**, idling more than 10 seconds uses more fuel and emits more pollutants than turning an engine off and on again; and

**WHEREAS**, current state law prohibits the idling of vehicles for more than three minutes and studies have shown that an anti-idling policy will save fuel, prolong engine life, and improve air quality;

**NOW THEREFORE BE IT RESOLVED** that the Township Committee of the Township of Bordentown, County of Burlington, State of New Jersey supports the adoption of a strong anti-idling policy by government agencies, schools, businesses, and other organizations by:

1. Make enforcing existing violations and penalties under New Jersey's existing no-idling law a priority for all Township Police Officers pursuant to C. 39:3-70.2 and C. 26:2C-1;
2. Encouraging any gasoline or diesel-powered motor vehicle to turn off their engines immediately at schools and off-site school related events to minimize exposure of children to vehicle emissions;
3. Maintaining municipal vehicles to eliminate any visible exhaust and complying with the annual inspection requirement for those vehicles;

4. Promote the widespread use of emission controls in construction contracts (for example, see the “Diesel Emission Controls in Construction Projects: Model Contract Specification” developed by the Northeast Diesel Collaborative); and
5. Supporting broad education of the public about the health, environmental and economic impacts of idling and ways to reduce idling.

It is hereby certified that the foregoing is a true and correct copy of a resolution adopted by the Township Committee of the Township of Bordentown at a meeting held on May 21, 2018.

RESOLUTION #2018-141-23

RESOLUTION ESTABLISHING A SUSTAINABLE LAND USE PLEDGE

WHEREAS, land use is an essential component of overall sustainability for a municipality; and

WHEREAS, poor land use decisions can lead to and increase societal ills such as decreased mobility, high housing costs, increased greenhouse gas emissions, loss of open space and the degradation of natural resources; and

WHEREAS, well planned land use can create transportation choices, provide for a range of housing options, create walkable communities, preserve open space, provide for adequate recreation, and allow for the continued protection and use of vital natural resources; and

WHEREAS, given New Jersey's strong tradition of home rule and local authority over planning and zoning, achieving a statewide sustainable land use pattern will require municipalities to take the lead;

NOW, THEREFORE, BE IT RESOLVED by the Township Committee of the Township of Bordentown does hereby take the following steps with regard to our municipal land-use decisions with the intent to make the Township of Bordentown a truly sustainable community. It is our intent to include these principles in the next master plan revision and reexamination report and to update our land-use zoning, natural resource protection, and other ordinances accordingly;

Regional Cooperation – We pledge to reach out to administrations of our neighboring municipalities concerning land-use decisions, and to take into consideration regional impacts when making land-use decisions.

Transportation Choices – We pledge to create transportation choices with a Complete Streets approach by considering all modes of transportation, including walking, biking, transit and automobiles, when planning transportation projects and reviewing development applications. We will reevaluate our parking with the goal of limiting the amount of required parking spaces, promoting shared parking and other innovative parking alternatives, and encouraging structured parking alternatives where appropriate.

Natural Resource Protection – We pledge to take action to protect the natural resources of the State for environmental, recreational and agricultural value, avoiding or mitigating negative impacts to these resources. Further, we pledge to utilize our Natural Resources Inventory to identify and assess the extent of our natural resources and to link natural resource management and protection to carrying capacity analysis, land-use and open space planning.

Mix of Land Uses – We pledge to use our zoning power to allow for a mix of residential, retail, commercial, recreational and other land use types in areas that make the most sense for our municipality and the region, particularly in downtown and town center areas.

Housing Options – We pledge, through the use of our zoning and revenue generating powers, to foster a diverse mix of housing types and locations, including single-and-multi-family, for-sale and rental options, to meet the needs of all people at a range of income levels.

Green Design – We pledge to incorporate the principles of green design and renewable energy generation into municipal buildings to the extent feasible and when updating our site plan and subdivision requirements for residential and commercial buildings.

Municipal Facilities Siting – We pledge, to the extent feasible, to take into consideration factors such as walkability, bikability, greater access to public transit, proximity to other land-use types, and open space when locating new or relocated municipal facilities.

It is hereby certified that the foregoing is a true and correct copy of a resolution adopted by the Township Committee of the Township of Bordentown at a meeting held on May 21, 2018.

RESOLUTION #2018-141-24

Bordentown Township Companion Animal Pledge

RECOGNIZING that cats and dogs are an integral and valuable part of all communities, and contribute to the well-being of humans, whether as companions, service animals, or therapy pets, and

UNDERSTANDING that municipalities have an important role in ensuring the well-being of animals while balancing the needs of pet owners and non-pet owners.

WHEREAS legislators and municipal officials report that the number of calls from citizens about animal related issues rival any other issue(s);

WHEREAS there are approximately 2.2 million owned dogs and 2.5 million owned cats in New Jersey;

WHEREAS New Jersey was the first state in the nation to develop an innovative state-wide spay/neuter program and all proceeds from the sale of Animal Friendly License Plates are used to reimburse participating veterinarians for spaying and neutering surgeries;

WHEREAS State responsibility for promoting responsible pet care and ensuring that pets do not suffer due to abuse, neglect, or lack of proper care in kennels, pet shops, shelters, and pounds (animal facilities) is vested in the Office of Animal Welfare within the New Jersey Department of Health and Senior Services;

WHEREAS The New Jersey Society to Prevent Cruelty to Animals (NJSPCA) and municipal Animal Cruelty Investigators (ACIs) are responsible for investigating and acting as officers for the detection, apprehension, and arrest of offenders against the animal cruelty laws;

WHEREAS New Jersey mandates training requirements for animal control officers and Animal Cruelty Investigators;

WHEREAS New Jersey impounds over 100,000 animals per year in animal shelters and impoundment facilities;

WHEREAS approximately 37% of the animals that enter New Jersey's impoundment facilities are euthanized, at a rate of around 3000 every month;

WHEREAS free-roaming unvaccinated cats and dogs present a potential health threat to humans through the spread of such zoonotic diseases as rabies, leptospirosis, toxoplasmosis, roundworms, animal bites, and environmental contamination from animal feces;

WHEREAS stray and unwanted pets place an enormous financial burden on municipalities and non-profit humane agencies organized to care for these animals; (To calculate an average per animal cost for your municipality, divide the total shelter expenditures - municipal animal control and shelter expenses - by the total number of animals served per year);;

WHEREAS it is more humane and cost-effective to reduce the number of unwanted animals than it is to impound and euthanize unwanted or unclaimed dogs and cats;

WHEREAS all dogs are required to be licensed in the municipality where they are housed and the majority of municipalities also require licensure of cats. (Current vaccination against rabies is a pre-requisite to licensure);

WHEREAS all municipalities are required to canvass their residents to locate unlicensed dogs;

NOW THEREFORE, we the Municipality of Bordentown Township, resolve to take the following steps with regard to our municipal responsibilities with the intent of making Bordentown Township a truly sustainable community.

It is our intent to do our utmost, within the bounds of our jurisdiction, to ensure that companion animals are treated humanely, respectfully, and responsibly through public education and through exercise of powers vested within New Jersey municipalities as follows:

**Authority of municipalities:**

Pursuant to New Jersey Statutes, all municipalities must appoint a certified animal control officer who shall be responsible for animal control within the jurisdiction of the municipality, including providing emergency veterinary care for injured stray animals and coverage outside of normal working hours;

The municipality in which an animal facility is located is responsible for issuing the license for that facility to operate;

The NJ Vicious Dog Law establishes a state-wide standard for municipalities to effectively address situations of vicious or potentially dangerous dogs, regardless of breed;

The Animal Population Control Program provides for low-cost spaying and neutering for pet owners adopting dogs and cats from New Jersey shelters, pounds, and animal adoption referral agencies and pet owners participating in one of several Public Assistance Programs.

The Municipality pledges to:

- Enforce all animal and rabies control statutes and regulations, including the requirement to pick up and impound all stray dogs and cats, excepting stray and feral cats in managed TNR programs.
- Work to improve the enforcement of animal cruelty statutes.
- Educate our community, including school children, about their responsibilities towards the pet animals they chose to keep.
- Institute, as appropriate, cat licensing ordinances and increase the percentage of licensed dogs and cats through ease of licensing and licensing enforcement measures.
- Identify and work to implement best practices to prevent unwanted breeding through effective animal control, availability of low-cost pet spaying and neutering services, public education, and pet-friendly rental and senior housing.
- Identify alternatives to euthanasia of adoptable companion animals, including utilizing foster homes, adoption networks and providing remedial behavior training services to existing and future owners.
- Assist in identifying resources to improve the conditions and increase the capacity of animal shelters and impoundment facilities and animal control services.

It is hereby certified that the foregoing is a true and correct copy of a resolution adopted by the Township Committee of the Township of Bordentown at a meeting held on May 21, 2018.
