Single Stream Recycling Starts September 1st
For All Homes with Curbside Recycling

IT’S OFFICIAL!

WHAT YOU SHOULD KNOW...

Curbside Homes WITH BLUE PAPER CARTS
Your existing blue paper cart becomes your single stream cart and you will stop using your recycling bucket. Put bottles and cans, along with paper and cardboard, into your blue cart. Residents who needed more capacity have ordered extra carts. For the short term, you may use recycling buckets for any overflow. Flatten cardboard to fit inside your cart. If your cart is full, flatten boxes into 2’ x 3’ size and set next to your cart.

WARNING – THESE CARTS ARE NOT FOR TRASH; RECYCLING CONTAINERS USED FOR TRASH WILL NOT BE COLLECTED.

Curbside Homes WITH NO CARTS
(Bordentown City, Fieldsboro, Shamong, historic parts of Burlington City and Roebling and some townhome communities)
If your neighborhood does not have carts, then you may use your recycling bucket for your single stream container. So, starting September 1, you can put paper and cardboard into your recycling bucket, along with your bottles and cans. If you need another bucket, your municipality may have extras available after September 30.

Recycling Dropoffs
Apartment and condominium complexes and municipal dropoffs will convert to single stream early next year.

Shredded Paper
Place in a paper bag and seal the bag with staples or tape. Or, use a small box and fold or tape the top shut. NEVER USE PLASTIC BAGS.

A Message from Burlington County Freeholder Director Bruce Garganio
Starting September 1, if you recycle at the curb, you will no longer need to separate paper and cardboard from bottles and cans. The switch to single stream will not only be more convenient, but also means you can recycle more types of plastics. Bookmark this for ready reference.

FOR MORE INFORMATION...
For recycling collection issues call (609) 267-6889
For cart repairs – contact your municipality • Carts are municipal property – if you move, leave your cart behind.
