

## Sign up for Swift911 Emergency Notification System

Brooklawn Borough, in a partnership and shared service with Camden County, is going to **Swift911 Emergency Notification System**. In the event of an emergency, this system will enable Brooklawn Public Safety Officials to quickly and efficiently alert and inform our residents.

### ALERTS:

Subscribers will receive emergency alerts via text messages (SMS), email, voice messaging, social media and the **Swift911** Public Mobile App for a variety of emergency events, including:

- ❖ **Weather and traffic alerts**
- ❖ **Prolonged outages**
- ❖ **Hazardous material leaks**
- ❖ **Missing Person searches**
- ❖ **Natural disaster alerts**
- ❖ **Special community notification**

Once registered, you can log in at any time to update your contact information and add/remove yourself from available list subscriptions. Participants can then opt in or out of subscribing to notifications from only Brooklawn Borough or subscribing to whichever municipality in Camden County they choose. The information you submit **WILL ONLY** be used for emergency notification purposes.

### REQUIRED INFORMATION:

The following information is required to enroll in the **Swift911** notification system. Because alerts are targeted geographically, your home address is required:

- ❖ **First and last name**
- ❖ **Street address, city, state, zip code (physical address, no P.O. boxes)**
- ❖ **Cell phone number and Home phone number**
- ❖ **E-mail address**
- ❖ **Secondary phone numbers and addresses can also be entered.**

### **INFORMATION FOR CELL PHONE USERS:**

Messages can be sent to both town-wide and to targeted geographic areas. While most published residential landlines have been automatically enrolled in the system, residents and employees who work within the Borough of Brooklawn will need to register their cell phones/mobile devices online.

All businesses should register, as should individuals who have enlisted phone numbers or those residents who changed their home phone number or address within the past year. Moreover, residents that use a cellular phone or VoIP phone as their primary number should also register their phone number.

### **DOWNLOAD OUR SMART PHONE APP:**

The **Swift911** Public Mobile App is available as a free download for iOS, Android, and Windows phones. You can download the mobile app through the App store on your phone, or text **Swift911** to **955-38** to receive a download link.

### **REGISTRATION HELP/ ADDITIONAL QUESTIONS:**

Residents with additional questions, without internet access, or who need help signing up online can contact Brooklawn Borough Office of Emergency Management Coordinator Ed Grant at 856-456-0750 Ext 153. If no answer, please leave a message and he will return your call as soon as possible.
