

**Brad Halbrook**  
**State Representative District 102**  
**Instructions and Tips for Circulators**

Thank you for being a volunteer for our campaign. You are one of many people who are introducing Brad to the voters of the 102nd House District. Many people enjoy circulating petitions and introducing a candidate they believe in to friends, family, and neighbors. We hope you'll be one of the many people introducing Brad around your area.

To help you out, here are some important things to remember.

**Circulators**

The circulator must witness each signature on the petition that he distributes. You can not leave a petition lying around unsupervised to collect signatures. You can not allow a person to sign for his spouse.

Any citizen over the age of 18 can circulate a petition, even if they don't live in the district or even the state. A blank petition can be copied and anyone can circulate as many petitions as they want.

Your petition must be notarized to be valid. Please do not sign until you are in front of a notary.

All signature lines on the petition don't have to be filled in. We want any partial petitions. Every voter matters!

Do not number the petitions that you hand in.

If you learn that a signature is invalid, it does not invalidate the entire petition.

You may sign the petition that you are circulating.

**Petition Signers**

Petition signers must live in the 102nd House District. A person can sign a petition for more than one Republican candidate for the 102nd House District.

Signers and circulators must give a valid physical address on the petition. No post office boxes are allowed.

Petitions should be signed as the person signs his or her name typically. There is no requirement to include middle names or initials or a full first name if the person doesn't sign with that.

**When You're Done**

After you're done circulating the petition, return it to us or contact us. Petitions should be returned by November 1, 2019
