

Welcome to the Branch Out Grant Application for our MS NeuroCAM Seed Grant.

You can press the Print button to view a PDF of the complete (blank) application or save your responses.

If you cannot complete the online submission in one sitting you can click the "Save for Later" link at the bottom of the page. Doing so will provide you with a custom link that you can use to return to the form at a later time. Remember to save that link in a safe place or email it to yourself.

Project Title:

Type of research:

Basic Research

Check all that describe your research

Translational Research

Clinical Trial

Relevant neuroCAM modality:

Nutraceutical

Check all that describe your research

Mind and Body

Personalized Medicine

Please see our website for guidance

Tech

Using the various headings below, please provide a brief description of your project. Please be as clear and concise as possible.

There is a separate field at the bottom for your references across all sections.

Lay Summary of Project

(500 words max)

Background:

Please describe the current state of research on your topic

(1000 words max)

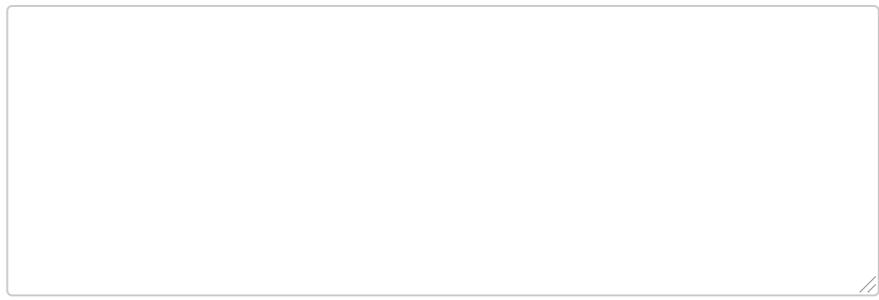

Specific Aims and Hypotheses:

Please list up to 3 specific aims and their corresponding hypotheses

(200 words max)

Methods:

Please describe the procedures that will be used to execute your study. Where possible, please provide citations to support your decisions.

(1000 words max)

Funding amount requested:

up to \$50, 000 CAD

Lower requests are more likely to be funded, so please only request what is safely necessary to complete the project.

Budget:

Please outline your proposed list of expenses for the project, and the justification of each item.

(700 words max)

Timeline:

Please list out the study timeline for the 1 year of funding

(1000 words max)

Feasibility:

Please outline any feasibility concerns for your project, as well as steps taken to address them

(500 words max)

Power:

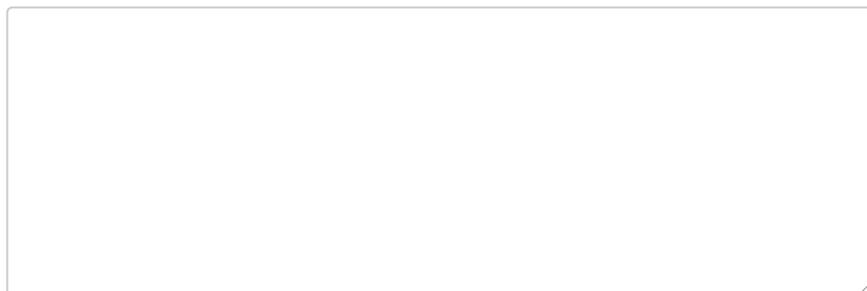

Please justify your proposed sample size with a power calculation.

References

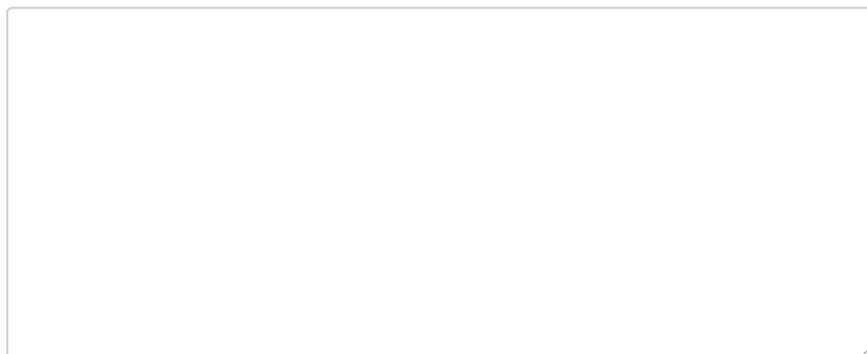

Please list your references for all sections above here:

Academic impact:

Please describe how your project advances the scientific understanding of MS and/or neuroCAM treatments of it (300 words max)

**Please describe the project's relation to neuroCAM.**

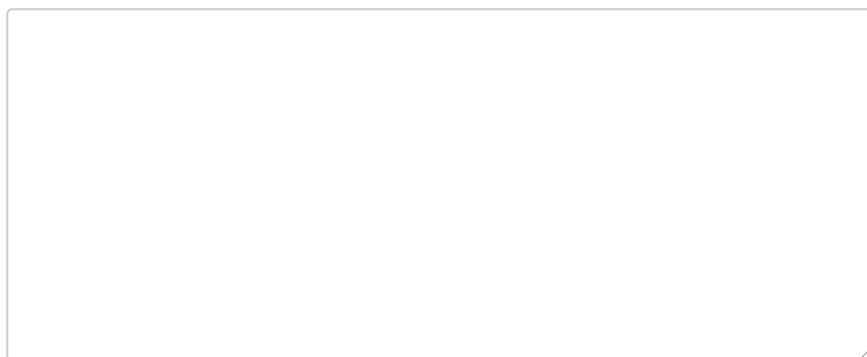

This should include a classification of 1 or more types of neuroCAM (<http://www.branchoutf...>) (300 words max)

**Please describe your knowledge translation plan:**

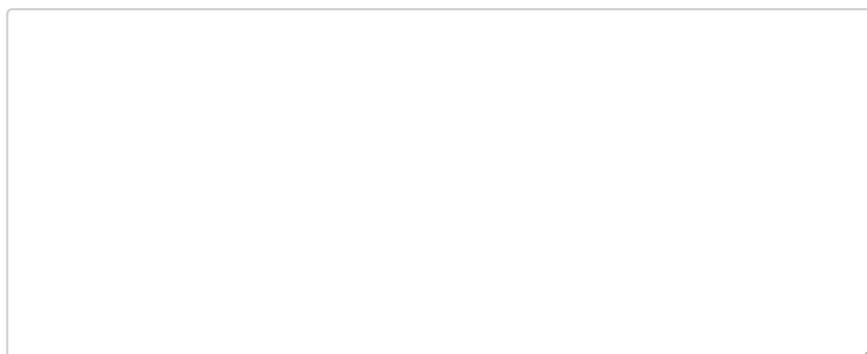

How will you distribute the knowledge gained from this project to the more broad non-academic community?

Please consider alternatives to traditional academic journals and conferences

(300 words max)

**Please describe how this project is a new venture for your lab, and assuming success, where this new line of research would lead**

If this project will provide pilot data for subsequent grant applications, please indicate which grants will be applied to (300 words max)

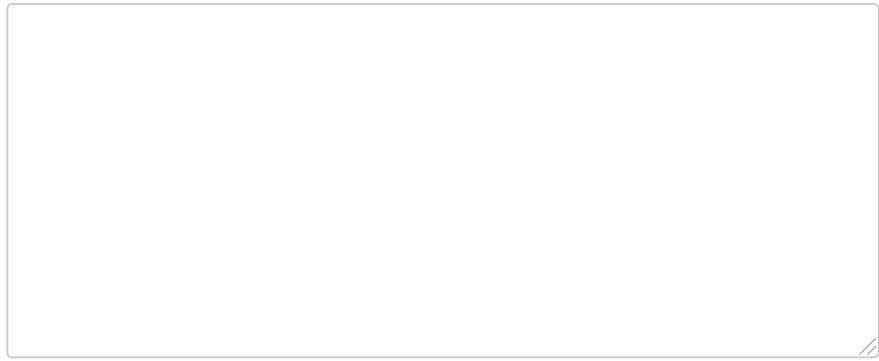

Collaborations:

Please describe any collaborative efforts, either between academic institutions, or with community partner organizations.

Please make sure the relative contribution of any/all collaborators is clear.

(300 words max)

A large, empty rectangular text box with a thin black border, intended for describing collaborative efforts. A small diagonal slash icon is visible in the bottom right corner of the box.**Project in a Tweet:**

Please demonstrate your knowledge translation skills by communicating your project's main ideas in 140 characters or less

A horizontal, empty rectangular text box with a thin black border, intended for a short summary of the project's main ideas.

Please review your application to ensure its completeness and accuracy.

If you are having any technical difficulty, please email research@branchoutfoundation.com for assistance.

- Send me email updates on Branch Out Foundation activities, events, and news.

- Send me occasional text messages for reminders, deadlines, events, etc.

Digital signature*

Please click down and drag to draw your signature. It doesn't have to be pretty :)
