About the Grant Program

Welcome to the Branch Out Grant Application for our Undergraduate, Masters, and PhD grants. Before continuing please ensure your eligibility for the grants and read the FAQ to ensure your are answering each question appropriately. A printable copy of the applications questions can also be found there.

If you cannot complete the online submission in one sitting you can click the "Save for Later" link at the bottom of the page. Doing so will provide you with a custom link that you can use to return to the form at a later time. Remember to save that link in a safe place or email it to yourself.

Grant Type

Which grant are you applying for?*

Undergraduate

Year For Which You Are Applying

Year 1

PhD grant only: How many years of funding are you requesting?

What is your expected date of graduation?

For Masters students considering transfering to a PhD, please list your expected date of transfer.

Project

Project Title:

Please read the Frequently Asked Questions page before completing this section of the
application to ensure that you are answering all of the questions properly. Applications that
display evidence that this has not been done may not be eligible for funding.

Please describe the rational, methods, hypotheses, and potential impact for this project.

Our Scientific Review Panel comes from a diverse set of scientific backgrounds. Please write clear enough for a general academic audience to understand, yet with key aspects articulated with enough detail for experts in the field to understand the rationale.

If relevant, please address any feasibility concerns (e.g. dosages, patient recruitment, technical challenges, estimated sample sizes and power, etc.)

For Undergraduate Applications, please use no more than 750 words.

For Graduate Appliations, please use no more than 1000 words.

Project Summary:
Undergraduates:
(750 words max)

Graduate Students:
(1000 words max)

Timeline of student's proposed work for the duration of funding:
(100 words max)

If this application is part of a larger research study, please clarify the scope and student responsibilities of the current application compared to the larger project

(max 100 words)

References

Please list no more than 30 references for all above sections here:

In 400 words, please describe how this project applies to Branch Out's funding mandate. Here are some suggestions on things to include:

Comment on how this project aligns with one or more NeuroCAM modalities.

Comment on both the basic and applied science aspects of this project, as well as any community impact that could stem from this project.

Comment on how this project advances a Scientific Community ____ No advancement from I2I is too small for Branch Out to consider funding.

Project's relation to Branch Out's mandate

(400 words max)

**Check all that apply to your research**

☐ Basic Research

☐ Translational Research

☐ Clinical Trial

Check all of the Modalities of the NeuroCAM Model which apply to your research:

☐ Nutraceutical
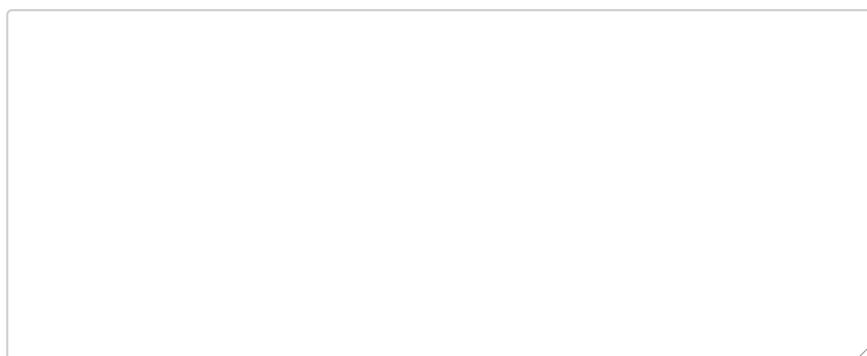

☐ Mind and Body

☐ Personalized Medicine

☐ Tech

Personal Statement and Lay Summary

In 100 words, please provide a lay summary of your project.

Please provide a personal statement that can include and previous research experience, career aspiration and any aspect fo your personal life that influence(d) your research program/career that you think may be helpful in reviewing your application.

In 250 words, please provide a personal statement.

References

Please list two academic references.

Remember, your references will need to fill in their own surveys by the application submission deadline. If they haven't already submitted their reference surveys on your behalf send them **this link** (it opens in a new window so you won't lose your application).

In case you want to manually copy the URL for the reference survey:
