

OUR OPINION

Brinda has helped Elyria make great strides as a city

I moved to Elyria in 1970. The first time I have bought a home here, I am married, and I have lived in Elyria my whole life, in manufacturing here and raised my children here. I've seen this city go through ups and downs, but in the last decade, it has really grown.

Brinda has the skills and plans to lead Elyria

I have known Holly Brinda for three decades. Her kids went to mine and I know how to her. She grew up here, her family have been here for generations. Being mayor of Elyria is just a job to her, it's a way to breathe life back into the city.

Brinda's vision has served Elyria residents well

As a lifelong Elyria resident, I am very optimistic about Elyria's comeback under the vision and direction of Mayor Holly Brinda.

I am a founding member of the Elyria Association Council and have heard her speak at many community events.

Keep Brinda on the job to keep improving Elyria

Keep the momentum moving. Reelect Elyria Mayor Holly Brinda.

I attended the candidate night and mayoral debate at the Elyria VFW, and had a chance to listen to all three candidates. Frank Whitfield claimed he has the most experience, but offered nothing more about how city finances work.
