Demand Pardons for all Police Torture Survivors Petition To be delivered to Governor J. B. Pritzker

Chicago Illinois is known as the “Police Torture Capital” of the United States. Illinois is the only state in the U. S. that has set up an official state Torture Inquiry and Relief Commission. Young people, almost all Black or Latinx, have been systematically tortured by police and been forced to falsely confess to crimes they did not commit. Most of the victims were children when they were tortured. Many are serving life sentences in prison without possibility of parole.
